- A. CITY'S Water Department is the owner of certain real property (the "City Property") known as Lake Murray, Lake Miramar, Lake San Vicente, and El Capitan Lake located in the City of San Diego (Lakes Miramar and Murray), and the County of San Diego (Lake San Vicente and El Capitan Lake). The City lakes are also water supply reservoirs, which are part of the San Diego region's overall drinking water system. The Permit area is the portion of these lakes open to the general public for recreational uses, as shown in Exhibits A-1, A-2, A-3 and A-4, attached hereto.
- B. PERMITTEE has requested the nonexclusive use of the lakes, which are City owned property, to test underwater instruments manufactured by Permittee.
- C. Under the terms and conditions of this Permit, and the rules and conditions stated in Exhibit B, CITY will allow PERMITTEE access to the Permit Area for the sole purpose of testing underwater instruments manufactured by PERMITTEE.

The first and last months Permit fees will be prorated as necessary to achieve payment on the first of the month. To compensate City for loss of interest and staff time associated with monitoring and follow-up on late payments, payments postmarked or paid in person after the first of the month will be subject to a late fee of five percent (5%) of the monthly Permit fee if one (1) to fifteen (15) days past due, and to an additional five percent (5%) [for a total of ten percent (10%)] late fee if sixteen (16) or more days past due. In no event shall the late fee be less than Fifty Dollars (\$50.00).
6. Permit Fee Adjustment. Effective December 1, 2008, the Permit fee will be adjusted upward by the amount equal to a 5% increase, for a monthly rent of \$1,575.00. Whenever required under this Permit, CITY'S consent or approval shall mean the written consent or approval of the Mayor of San Diego, or his or her designee ("Mayor"), unless otherwise expressly provided. CITY'S discretionary acts hereunder shall be made in the Mayor's discretion, unless otherwise expressly provided.
8. Governmental Approvals. By entering into this Permit, neither CITY nor CITY'S City Council is obligating itself to any other governmental agent, board, commission, or

agency with regard to any other discretionary action relating to the Permit Area or PERMITTEE'S use of the Permit Area. Discretionary action includes but is not limited to re-zonings, variances, environmental clearances, or any other governmental agency approvals which may be required for the PERMITTEE'S use of the Permit Area.

9. Hazardous Substances. PERMITTEE shall not allow the installation or release of hazardous substances in, on, under, or from the Permit Area or the City Property. PERMITTEE and PERMITTEE'S agents and contractors shall not store, utilize, or sell any hazardous substance on the Permit Area or the City Property without CITY'S prior written consent. For the purposes of this provision, a release shall include but not be limited to any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leeching, dumping, or otherwise disposing of hazardous substances. "Hazardous substances" shall mean those hazardous substances listed by the Environmental Protection Agency in regularly released reports and any other substances incorporated into the State of California's list of hazardous substances. A copy of the presently effective EPA and the State lists is on file in the Office of the City Clerk as Document 769704 and by this reference is incorporated into this Lease.
 - 9.1 Remediation. If PERMITTEE'S occupancy, use, development, maintenance, or restoration of the Permit Area results in a release of a hazardous substance, PERMITTEE shall pay all costs of remediation and removal of the hazardous substance in accordance with all applicable laws, rules, and regulations of governmental authorities.
 - 9.2 Indemnity. PERMITTEE shall protect, defend, indemnify, and hold CITY harmless from any and all claims, costs, and expenses related to environmental liabilities resulting from PERMITTEE'S occupancy, use, development, maintenance, or restoration of the Permit Area, including but not limited to costs of environmental assessments, costs of remediation and removal, any necessary response costs, damages for injury to natural resources or the public, and costs of any health assessment or health effect studies.

PERMITTEE shall notify CITY immediately of any notice of violation received or initiation of environmental actions or private suits related to the Permit Area or the City Property.
 - 9.4 Environmental Assessment. Upon reasonable cause to believe that PERMITTEE'S occupancy, use, development, maintenance, or restoration of the Permit Area or the City Property ("PERMITTEE'S Operations"), resulted in any hazardous substance being released on or beneath the Permit Area or the City

Property, CITY may cause an environmental assessment of the suspect area to be performed by a professional environmental consultant registered with the State of California as a Professional Engineer, Certified Engineering Geologist, or Registered Civil Engineer. The environmental assessment shall be obtained at PERMITTEE'S sole cost and expense, and shall establish what, if any, hazardous substances have more likely than not been caused by PERMITTEE'S Operations on, in, or under the Permit Area or the City Property, and in what quantities. If any such hazardous substances exist in quantities greater than allowed by city, county, state, or federal laws, statutes, ordinances, or regulations, then the environmental assessment shall include a discussion of such substances with recommendations for remediation and removal necessary to effect compliance with those laws or statutes, and estimates of the cost of such remediation or removal. PERMITTEE shall cause, or if PERMITTEE fails to do so within a reasonable period of time, CITY may cause, the remediation and/or removal recommended in the environmental assessment such that compliance with environmental law is achieved, and PERMITTEE shall pay all costs and expenses therefor.

PERMITTEE shall comply with any and all applicable County and State laws regarding well abandonment.
16. Indemnification. PERMITTEE shall protect, defend, indemnify, and hold CITY, its elected officials, officers, representatives, agents, and employees harmless from and against any and all claims asserted or liability established for damages or injuries to any

A little courtesy goes a long way in helping everyone enjoy the water. • Make sure everyone in your party understands and obeys lake rules and is observant • Keep as far away from other vessels and shoreline anglers as possible • Keep music volume down. • If a skier/boarder falls, stop, make turn and pick up at idle speed. This will help improve water conditions by substantially reducing cross wakes

City of San Diego

Introduction

What you may know as a place for recreational fun, is also a source for our drinking water. Our lakes are actually water supply reservoirs, which are part of the overall drinking water system. The City has offered recreation at its reservoirs since 1913, and is widely recognized as a leader in the multiple use of water supply reservoirs. The reservoirs and the recreation programs are operated by the Water Department's Water Operations Division.

The San Diego Water Department's top priority is to ensure the safety of San Diego's public water supply. We also need you to help keep our water supply clean; properly dispose of your trash in the appropriate bins. Please check out the insert for more ways you can help protect water quality.
