

DUPLICATE

STANDARD SPACE LEASE

Between

THE UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION

And

City of San Diego

FAA CONTRACT NO: 690EG4-20-L-00079

ATID/FACILITY TYPE: SAN FSDO

LOCATION: San Diego, CA

1. **Preamble (09/2021) 6.1.1** This Lease for real property is hereby entered into by and between City of San Diego hereinafter referred to as the Lessor and the United States of America, acting by and through the Federal Aviation Administration, hereinafter referred to as the FAA.
2. **Space Lease Definitions (07/2022) 6.1.1-3** For purposes of this document, the following definitions apply;

Contract- refers to this legal instrument used to acquire an interest in real property for the direct benefit or use by the FAA. A lease is a contract for the acquisition of real property. For purposes of this document, the terms Contract and Lease are interchangeable.

Contractor- refers to the party(ies) awarded a direct procurement contract from the FAA and who is (are) responsible for performance of contract requirements. For purposes of this document, the terms Contractor, Lessor and Offeror are interchangeable.

Government- refers to the United States of America acting by and through the Federal Aviation Administration (FAA). For purposes of this document, the terms Government and FAA are interchangeable.

Real Estate Contracting Officer (RECO) - refers to a trained and warranted official, who has the authority to contract for real property on behalf of the FAA. For purposes of this agreement, the term RECO and Contracting Officer (CO) are interchangeable.

ANSI/BOMA Office Area (ABOA)- refers to the area where a tenant normally houses personnel, and/or furniture, for which a measurement is to be computed, as defined by the most current American National Standards Institute/Building Owners and Managers Association (ANSI/BOMA) publication.

Full Service Lease- refers to a lease structure where the rent covers all base rent, taxes, insurance, management, utilities, janitorial and any other operating expenses for the property.

3. **Superseding Contract 6.1.2-1** This contract supersedes DTFAWN-14-L-00036 and all other previous agreements (if any) between the parties for the property described in this document.

FILED APR 09 2024

OFFICE OF THE CITY CLERK
SAN DIEGO, CALIFORNIA

4. **Lease Witnesseth (09/2021) 6.1.3** Witnesseth: The parties hereto, for the consideration hereinafter mentioned, covenant and agree as follows:
5. **Leased Space Description 6.1.4** The Lessor hereby leases to the Government the following described premises;

Approximately 7,736 rentable square feet of office space located at 8525 Gibbs Drive, Suite 120, San Diego, CA 92123.

The Lessor shall provide five (5) reserved off-street parking spaces at no additional cost to the Government. With respect to compliant accessible parking spaces, see the "Accessibility" clause.

Acceptance of Demised Premises

The Lessor provides the demised premises to the Government in its current condition. The Government acknowledges that it is currently in possession of the premises and has occupied the premises for a period of approximately 25 years prior to the effective date of this Lease. The Government accepts the demised premises in its "as-is" and "where-is" condition and warrants that the Government has no knowledge of any conditions on the premises that do not comply with the terms and conditions of this Lease. The Lessor will maintain the demised premises, including the building, grounds, all equipment, fixtures and appurtenances furnished by the Lessor under this Lease, in good repair and tenantable condition. The Lessor shall ensure that all hazards associated with electrical equipment are marked in accordance with the Occupational Safety and Health Administration (OSHA) requirements and National Fire Protection Association (NFPA) 70 electrical code.

6. **Purpose (09/2021) 6.1.5** It is understood and agreed that the use of the herein described premises shall be related to FAA's activities in support of the National Airspace System (NAS).
7. **Legal Authority (09/2021) 6.2.1** This contract is entered into under the authority of 49 U.S.C. 106(l)(6) and (n), which authorizes the Administrator of the FAA to enter into contracts, acquisitions of interests in real property, agreements, and other transactions on such terms and conditions as the Administrator determines necessary.
8. **Term (09/2021) 6.2.3** To have and to hold, for the term commencing on August 7, 2019 and continuing through January 31, 2024 inclusive, provided that adequate appropriations are available from year to year for the consideration herein.
9. **Consideration (Standard Space) 6.2.4-1**
- A. The Government shall pay Lessor annual rent, in the amount of \$225,747.48, for the premises, payable in monthly installments in arrears, in the amount of \$18,812.29.
- B. Payment shall be made in arrears, without the submission of invoices or vouchers. Payments are due on the first business day following the end of the payment period and are subject to available appropriations. The payments shall be directly deposited in accordance with the "Payment by Electronic Funds Transfer" clause in this contract. Payments shall be considered paid on the day an electronic funds transfer is made.

C. Payment shall be made in full to: City of San Diego

D. The parties acknowledge that the Government owes the Lessor a one-time, lump sum payment, in settlement of any potential disputes or claims which may arise or have arisen in reference to the Government's prior holdover occupancy of the premises from August 7, 2019, to September 30, 2023, in the total amount of \$936,852.13, due and payable to Lessor on the effective date of this lease.

	From (FY)	To (FY)	Rent due
Funding Period 1	08/07/2019	9/30/2019	\$33,862.21
Funding Period 2	10/01/2019	9/30/2020	\$225,747.48
Funding Period 3	10/01/2020	9/30/2021	\$225,747.48
Funding Period 4	10/01/2021	09/30/2022	\$225,747.48
Funding Period 5	10/01/2022	09/30/2023	\$225,747.48
Total Lump sum Due			\$ 936,852.13

10. **Termination for Convenience 6.2.5-1** The Government may terminate this contract at any time, in whole or in part, if the Contracting Officer (CO) determines that a termination is in the best interest of the Government. The CO shall terminate by delivering to the contractor a written notice specifying the effective date of the termination. The termination notice shall be issued 90 days before the effective termination date.

After termination, the Contractor may submit a final termination settlement proposal to the CO in the form and with the certification prescribed by the CO. The proposal must include all documentation necessary to validate the proposal.

The contractor must submit the proposal no later than one (1) year from the effective date of termination unless the submission deadline is extended in writing by the CO upon written request of the contractor within this one (1) year period. However, if the CO determines that the facts justify it, a termination settlement proposal may be received and acted on after one (1) year or any extension. If the contractor fails to submit the proposal within the time allowed, the CO may determine, on the basis of information available, the amount, if any, due the contractor because of the termination and shall pay the amount so determined.

After submission of final termination settlement proposal, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount to be paid because of the termination.

If the contractor and the CO fail to agree, the Government will pay the contractor the amounts determined by the CO as follows:

- 1) The contract price for any unpaid rents; and
- 2) Reasonable costs associated with termination.

If the termination is partial, the contractor may file a proposal with the CO for an equitable adjustment of the price(s) of the continued portion of the contract. If agreed upon, the CO may make the equitable adjustment. Any proposal by the contractor for an equitable adjustment under this clause must be requested within 90 days from the effective date of termination unless extended in writing by the CO.

The contractor may file a claim with the Federal Aviation Administration Office of Dispute Resolution for Acquisition based on any determination made by the CO pursuant to this clause. Nothing in this clause will obligate the government to spend in excess of available appropriations.

11. Termination for Default 6.2.5-2

- A. Subject to the provision of notice of default to the Lessor, and the provision of reasonable opportunity for the Lessor to cure the default, the following conditions constitute default by the Lessor:
- i. After Acceptance of the Premises. Failure by the Lessor to perform any service, or to make progress in the work so as to endanger performance; the failure to make any item; or the failure to satisfy any requirement of this Lease, without such failure being affirmatively excused, in writing, by the RECO.
- B. Grounds for Termination. The Government may terminate the Lease, in whole or in part, if:
- i. after given written notice and reasonable opportunity to cure by the Government, the Lessor's default persists; or
 - ii. the Lessor fails to take such actions as necessary to prevent the recurrence of default conditions after written notice and a reasonable opportunity to cure, and such conditions substantially impair the Government's use or occupancy of the premises, as determined by the Government.
- C. The rights and remedies specified in this clause are in addition to all remedies to which the Government may be entitled to as a matter of law.

12. Excuse (09/2021) 6.2.5-3

- A. The Lessor will not be in default because of any failure to perform the requirements of this Lease under its terms if the failure arises from causes beyond the control and without the fault or negligence of the Lessor.
- B. Permissible causes for excuse are:
- i. acts of God (e.g., fires, floods, pandemics, epidemics, unusually severe weather, etc.),
 - ii. acts of the public enemy,
 - iii. acts of the Government in either its sovereign or contractual capacity,
 - iv. pandemic, epidemic, or quarantine restrictions,
 - v. strikes, and
 - vi. freight embargoes. In each instance, the failure to perform must be beyond the control and without the fault or negligence of the Lessor.
- C. Excuse will not be granted when:
- i. the Lessor had actual or constructive knowledge prior to the Lease Award Date that he/she could not perform in accordance with the requirements of the Lease contract;
 - ii. the conditions of the property prevent performance;
 - iii. the Lessor, its employees, agents or contractors, by error or omission, fails to perform; or

iv. the Lessor is unable to obtain sufficient financial resources to perform its obligations.

D. The RECO will ascertain the facts and extent of the failure. If the RECO determines that any failure to perform is excusable, the RECO will revise the delivery schedule subject to the rights of the Government under the default and termination clauses of this contract.

13. **Binding Effect (09/2021) 6.2.6** The provisions of this contract and the conditions herein shall be binding upon, and for the benefit of, the parties and their successors and assigns. In the event of any sale or transfer of ownership of the property or any portion thereof, the Government will be deemed to have attorned to any purchaser, successor, assign, or transferee. The succeeding owner will be deemed to have assumed all rights and obligations of the contractor under this contract establishing direct privity of estate and contract between the Government and said succeeding owner, with the same force, effect, and relative priority in time and right as if the contract had initially been entered into between such succeeding owner and the Government.
14. **Holdover 6.2.12** Any holdover tenancy by Government after expiration of the term of this Lease shall not be considered as a renewal or extension of this Lease. The continued occupancy of the premises by Government after the expiration or termination of this Lease shall constitute a month-to-month tenancy, and all other terms and conditions of this Lease shall continue in full force and effect provided Government shall, during the holdover tenancy, pay Contractor monthly rent of 150% of the last monthly rent amount owed under this Lease for the month immediately prior to the commencement of the holdover tenancy.”
15. **RE Clauses Incorporated by Reference (09/2021) 6.3.0** This solicitation or contract, as applicable, incorporates by reference the provisions or clauses listed below with the same force and effect as if they were given in full text. Upon request, the RECO will make the full text available, or the full text may be obtained via internet at https://fast.faa.gov/RPF_Real_Property_Clauses.cfm.
- A. **Interest (09/2021) 6.3.0-1**
 - B. **Officials Not To Benefit (09/2021) 6.3.0-2**
 - C. **Contracting Officer's Representative (09/2021) 6.3.0-4**
 - D. **Contingent Fees (09/2021) 6.3.0-5**
 - E. **Anti-Kickback Procedures (09/2021) 6.3.0-6**
 - F. **Equal Opportunity (09/2021) 6.3.0-7**
 - G. **Equal Opportunity for Veterans (04/2022) 6.3.0-8**
 - H. **Equal Opportunity for Workers with Disabilities (04/2022) 6.3.0-9**
 - I. **Davis Bacon Act (01/2022) 6.3.0-10**
 - J. **Minimum Wages for Contractor Workers Under Executive Order 14026 (01/2022) 6.3.0-11**
16. **Funding Responsibility for FAA Facilities (09/2021) 6.3.6** The Contractor agrees that all Contractor requested relocation(s), replacement(s), or modification(s) of any existing or future FAA navigational aid or communication system(s) necessitated by Contractor improvements or changes will be at the expense of the Contractor. In the event that the Contractor requested changes or improvements interferes with the technical and/or operational characteristics of the FAA's facility, the Contractor will immediately correct the interference issues at the Contractor's expense. Any FAA requested relocation, replacement, or modifications shall be at the FAA's expense. In the event such relocations, replacements, or modifications are necessary due to causes not attributable to either

the Contractor or the FAA, funding responsibility shall be determined by mutual agreement between the parties and memorialized in a Supplemental Agreement.

17. **Accessibility 6.3.7** The building and the leased premises must be accessible to persons with disabilities pursuant to the Architectural Barriers Act and Rehabilitation Act as detailed in the Architectural Barriers Act Accessibility Standards (ABAAS) 41 CFR Parts 102-71, 102-72, et al, and all applicable state and local accessibility laws and regulations. ABAAS is available at www.access-board.gov.

If at any time during the term of this Lease, it is determined that the building or the leased premises are not accessible as detailed in the ABAAS, or as required by applicable state and local accessibility laws and regulations, the Lessor shall be responsible for completing any repairs or modifications necessary to bring the building or leased premises into compliance, provided that the costs of such repairs or modifications does not exceed \$10,000. If the necessary repairs or modifications are estimated to exceed \$10,000, the Government shall have the option of being solely responsible for all costs of any repairs or modifications that exceed \$10,000 or terminating the Lease without any further obligations or liabilities for future rent. This Lease is a short-term lease, and the Government acknowledges that this limitation on Lessor's responsibility for any required repairs or modifications is a material consideration for the Lessor entering into the Lease.

Subject to the exception set forth herein, separate ABAAS compliant restroom facilities for men and women must be provided on each floor where the Government leases space. Separate ABAAS compliant restroom facilities must not be required if due to the age of the building, design layout, or other structural requirements, it is technically infeasible to do so. In the event the Lessor determines that it is technically infeasible to provide separate ABAAS compliant restroom facilities, the Lessor must provide the basis for the determination of technical infeasibility in writing to the RECO, together with all supporting documentation.

With respect to all restrooms, water closets, and urinals, they must not be visible when the exterior door is open. Each restroom must contain toilet paper dispensers, soap dispensers, paper towel dispensers, waste receptacles, a sanitary napkin dispenser, and receptacle for each toilet in the women's restroom, disposable toilet seat cover dispensers, a convenience outlet, and hot and cold water. Two or more drinking fountains must be provided. One drinking fountain shall be a low unit commonly called a wheelchair unit and one drinking fountain shall comply with standing persons' requirements, unless sufficient space is not available to provide both a wheelchair unit and a unit for standing persons. In such instance, and subject to the approval of the RECO, a single unit able to accommodate both disabled and non-disabled persons must be provided.

In addition, compliant accessible parking spaces must be provided in accordance with the ABAAS requirements as detailed in 42 U.S.C. 4151 and as set forth in the ABAAS Scoping Requirements.

18. **Changes (09/2021) 6.3.8 DELETED**

19. **Failure in Performance 6.3.16** In the event the Contractor fails to perform a service, provide an item, or satisfy a requirement under this Contract, the Government may, following written notice to Lessor as provided in Section 11 of this Lease:

A. perform the service, provide the item, or satisfy the requirement itself, and abate the rent by its actual costs (including administrative costs) incurred in doing so,

B. not correct the Contractor's performance and abate the rent by an amount reasonably calculated to approximate the decreased value of the Contract arising from the Contractor's failure to perform, or
C. pursue termination of the contract under the "Termination" clause(s) in this Contract.

20. **No Waiver (09/2021) 6.3.17** No failure by the Government to insist upon strict performance of any provision of this Contract or failure to exercise any right, or remedy consequent to a breach thereof, will constitute a waiver of any such breach in the future.
21. **Non-Restoration (09/2021) 6.3.18** It is hereby agreed between the parties that, upon termination of its occupancy, including any holdover period, the Government shall have no obligation to restore and/or rehabilitate, either wholly or partially, the property that is the subject of this contract. It is further agreed that the Government may abandon in place any or all of the structures and equipment installed in or located upon said property by the Government during its tenure. Such abandoned equipment shall become the property of the contractor.
22. **Quiet Enjoyment (09/2021) 6.3.25** The Contractor warrants that they have good and valid title to the premises, and rights of ingress and egress, and warrants and covenants to defend the Government's use and enjoyment of said premises against third party claims.
23. **Damage by Fire or Other Casualty or Environmental Hazards (09/2021) 6.3.26** If the premises is partially or totally destroyed or damaged by fire or other casualty or if environmentally hazardous conditions are found to exist so that the premises is untenable as determined by the Government, the Government may agree to allow restoration/reconstruction, or may elect to terminate the contract, in whole or in part, immediately by giving written notice to the contractor and no further rental will be due. The Government shall have no duty to pay rent while the premises are unoccupied.
24. **Occupancy Permit (09/2021) 6.3.27-1** The premises offered must have a valid Occupancy Permit, issued by the local jurisdiction, for the intended use of the Government, or the Lessor will complete and provide a certified copy of the "Checklist: FAA Safety & Environmental Certification" form, in lieu of an occupancy permit, at the RECO's discretion.
25. **Interference (09/2021) 6.3.28** In the event that FAA operations interfere with the Contractor's facility, the Contractor must immediately notify the RECO. The FAA will begin assessment of interference immediately upon notification.
If the Contractor or its facility interferes with the FAA's equipment and the Contractor either knows of, or is notified by the FAA, of the interference, the Contractor will immediately remediate the interference at its own cost.
Notification under this clause must include the following information, if known:
A. type of interference,
B. the commencement date of the interference, and
C. the root cause of the interference.
26. **Alterations (09/2021) 6.3.29** The Government shall have the right during the term of this Lease, including any extensions thereof, to make alterations, attach fixtures, and erect structures or signs in or upon the premises hereby leased, which fixtures, alterations or structures so placed in, on, upon, or attached to the said premises shall be and remain the property of the Government and may be removed or otherwise disposed of by the Government. The parties hereto mutually agree and

understand, that no restoration rights shall accrue to the Lessor for any alterations or removal of alterations to the leased premises under this Lease, and that the Government shall have the option of abandoning alterations in place, when terminating the Lease, at no additional cost.

27. **Hold Harmless (09/2021) 6.3.30** In accordance with and subject to the conditions, limitations and exceptions set forth in the Federal Tort Claims Act, 28 U.S.C. Ch. 17, the Government will be liable to persons damaged by any personal injury, death or injury to or loss of property, which is caused by a negligent or wrongful act or omission of an employee of the Government while acting within the scope of his office or employment under circumstances where a private person would be liable in accordance with the law of the place where the act or omission occurred. The foregoing shall not be deemed to extend the Government's liability beyond that existing under the Act at the time of such act or omission or to preclude the Government from using any defense available in law or equity.
28. **Compliance with Applicable Laws 6.3.31** The Lessor shall comply with all federal, state and local laws applicable to the Lessor as owner or Lessor, or both, of building or premises, including, without limitation, laws applicable to the construction, ownership, alteration or operation of both or either thereof, and will obtain all necessary permits, licenses and similar items at Lessor's expense. This Lease shall be governed by federal law and applicable state and local laws.
The Government will comply with all federal, state, and local laws applicable to and enforceable against it as a tenant under this lease, provided that nothing in this lease shall be construed as a waiver of the sovereign immunity of the Government.
29. **Examination of Records (09/2021) 6.3.32** The Comptroller General of the United States, the Administrator of FAA or a duly authorized representative of either shall, until three (3) years after final payment under this contract, have access to and the right to examine any of the Lessor's directly pertinent books, documents, paper, or other records involving transactions related to this contract.
30. **Subordination, Nondisturbance and Attornment (09/2021) 6.3.33**
- A. The Government agrees, in consideration of the warranties and conditions set forth in this clause, that this contract is subject and subordinate to any and all recorded mortgages, deeds of trust and other liens now or hereafter existing or imposed upon the premises, and to any renewal, modification or extension thereof. It is the intention of the parties that this provision shall be self-operative and that no further instrument shall be required to effect the present or subsequent subordination of this contract. Based on a written demand received by the RECO, the Government will review and, if acceptable, execute such instruments as the contractor may reasonably request to evidence further the subordination of this contract to any existing or future mortgage, deed of trust or other security interest pertaining to the premises, and to any water, sewer or access easement necessary or desirable to serve the premises or adjoining property owned in whole or in part by the contractor if such easement does not interfere with the full enjoyment of any right granted the Government under this contract.
- B. No such subordination, to either existing or future mortgages, deeds of trust or other lien or security instrument shall operate to affect adversely any right of the Government under this contract so long as the Government is not in default under this contract. Contractor will include in any future mortgage, deed of trust or other security instrument to which this contract becomes subordinate, or in a separate non-disturbance agreement, a provision to the foregoing effect. Contractor warrants that

the holders of all notes or other obligations secured by existing mortgages, deeds of trust or other security instruments have consented to the provisions of this clause, and agrees to provide true copies of all such consents to the RECO promptly upon demand.

C. In the event of any sale of the premises or any portion thereof by foreclosure of the lien of any such mortgage, deed of trust or other security instrument, or the giving of a deed in lieu of foreclosure, the Government will be deemed to have attorned to any purchaser, purchasers, transferee or transferees of the premises or any portion thereof and its or their successors and assigns, and any such purchasers and transferees will be deemed to have assumed all obligations of the contractor under this contract, so as to establish direct privity of estate and contract between Government and such purchasers or transferees, with the same force, effect and relative priority in time and right as if the contract had initially been entered into between such purchasers or transferees and the Government; provided, further, that the RECO and such purchasers or transferees shall, with reasonable promptness following any such sale or deed delivery in lieu of foreclosure, execute all such revisions to this contract, or other writings, as shall be necessary to document the foregoing relationship.

D. None of the foregoing provisions may be deemed or construed to imply a waiver of the Government's rights as a sovereign.

31. Notification of Change in Ownership or Control of Land (09/2021) 6.3.34 If the Contractor sells, dies or becomes incapacitated, or otherwise conveys to another party or parties any interest in the aforesaid land, rights of way thereto, and any areas affecting the premises, the Government shall be notified in writing, of any such transfer or conveyance within 30 calendar days after completion of the change in property rights. Concurrent with the written notification, the Contractor or Contractor's heirs, representatives, assignees, or trustees shall provide the Government copies of the associated legal document(s) (acceptable to local authorities) for transferring and/or conveying the property rights.

32. Change of Ownership/Novation (09/2021) 6.3.34-1

A. If during the term of the Lease, title to the Property is transferred or the Lessor changes its legal name, the Lessor shall notify the Government within five days of the transfer of title/change of name.

B. The Government and the Lessor must execute a Supplemental Agreement acknowledging the transfer of title or name change.

C. If title to the Property is transferred, the Government, the original Lessor (Transferor), and the new owner or assignee (Transferee) shall execute a Novation Agreement providing for the transfer of Transferor's rights and obligations under the Lease to the Transferee. When executed on behalf of the Government, a Novation Agreement will be made part of the Lease via Supplemental Agreement.

D. The RECO may request additional information (e.g., copy of the deed, bill of sale, certificate of merger, contract, court decree, articles of incorporation, operation agreement, partnership certificate

of good standing, etc.) from the Transferor or Transferee to verify the parties' representations regarding the transfer.

E. If the RECO determines that recognizing the Transferee as the Lessor will not be in the Government's interest, the Transferor shall remain fully liable to the Government for the Transferee's performance of obligations under the Lease, notwithstanding the transfer. Under no condition shall the Government be obligated to release the Transferor of obligations prior to (a) the rent commencement date; and (b) any amounts due and owing to the Government under the Lease that have been paid in full or completely set off against the rental payments due under the Lease.

F. As a condition for being recognized as the Lessor and entitlement to receiving rent, the Transferee must register in the System for Award Management (SAM) for purposes of "All Awards", and complete all required representations and certifications within SAM and the "Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment" in this contract.

G. If title to the Property is transferred, rent shall continue to be paid to the original Lessor, subject to the Government's rights as provided for in this Lease. The Government's obligation to pay rent to the Transferee shall commence on the effective date of the Lease Amendment incorporating the Novation Agreement. The Lease Amendment will not be issued until the Government has received all information reasonably required by the RECO, the Government has determined that recognizing the Transferee as the Lessor is in the Government's interest (which determination will be prompt and not unreasonably withheld), and the Transferee has met all conditions specified in sub-paragraph F.

33. Sublease (09/2021) 6.3.35 DELETED

34. Integrated Agreement (09/2021) 6.3.36 This Contract, upon execution, contains the entire agreement of the parties, and no prior written or oral agreement, express or implied shall be admissible to contradict the provisions of this Contract.

35. Unauthorized Negotiating (09/2021) 6.3.37 In no event shall the Contractor enter into negotiations concerning the premises with anyone other than the RECO or his/her designee.

36. Inspection of Leased Premises (09/2021) 6.3.38 To ensure a safe and healthy work environment for government employees, agents, and assigns, and to ensure the Contractor's performance under this contract, the Government at all times and places during the term of the contract has the right to:

A. inspect the leased premises and all other areas of the building to which access is necessary,

B. test all performance requirements under the contract, and

C. perform any necessary sampling and evaluation to ensure contract compliance.

If inspection reveals a contractual non-conformance, then the Government may require the

Contractor to perform in accordance with the contract requirements at no increase in contract amount

or the Government, in its sole discretion, may perform the work itself in accordance with the "Failure in Performance" clause of this Contract.

The presence or absence of a government inspection does not relieve the Contractor from any contract requirement, nor is the inspector authorized to change any term or condition of the contract without the RECO's written authorization.

37. Contract Disputes (09/2021) 6.3.39

A. All contract disputes arising under or related to this contract shall be resolved through the Federal Aviation Administration (FAA) dispute resolution system at the Office of Dispute Resolution for Acquisition (ODRA) and shall be governed by the procedures set forth in 14 C.F.R. Parts 14 and 17, which are hereby incorporated by reference. Judicial review, where available, will be in accordance with 49 U.S.C. 46110 and shall apply only to final agency decisions. A contractor may seek review of a final FAA decision only after its administrative remedies have been exhausted.

B. The filing of a contract dispute with the ODRA may be accomplished by mail, overnight delivery, hand delivery, or by facsimile, or if permitted by Order of the ODRA, by electronic filing. A contract dispute is considered to be filed on the date it is received by the ODRA during normal business hours. The ODRA's normal business hours are from 8:30 am to 5:00 pm Eastern Time.

C. Contract disputes are to be in writing and shall contain:

- i. The contractor's name, address, telephone and fax numbers and the name, address, telephone and fax numbers of the contractor's legal representative(s) (if any) for the contract dispute;
- ii. The contract number and the name of the Contracting Officer;
- iii. A detailed chronological statement of the facts and of the legal grounds for the contractor's positions regarding each element or count of the contract dispute (i.e., broken down by individual claim item), citing to relevant contract provisions and documents and attaching copies of those provisions and documents;
- iv. All information establishing that the contract dispute was timely filed;
- v. A request for a specific remedy, and if a monetary remedy is requested, a sum certain must be specified and pertinent cost information and documentation (e.g., invoices and terminated checks) attached, broken down by individual claim item and summarized; and
- vi. The signature of a duly authorized representative of the initiating party

D. Contract disputes shall be filed at the following address:

- i. For filing by hand delivery, courier or other form of in-person delivery:

Office of Dispute Resolution for Acquisition
Federal Aviation Administration
600 Independence Avenue SW., Room 2W100
Washington, DC 20591; or

For filing by U.S. Mail:

Office of Dispute Resolution for Acquisition
Federal Aviation Administration
800 Independence Avenue SW
Washington, DC 20591
[Attention: AGC-70, Wilbur Wright Bldg. Room 2W100]; or

Telephone: (202) 267-3290
Facsimile: (202) 267-3720
Alternate Facsimile: (202) 267-1293; or
ii. Other address as specified in 14 CFR Part 17.

E. A contract dispute against the FAA shall be filed with the ODRA within two (2) years of the accrual of the contract claim involved. A contract dispute by the FAA against a contractor (excluding contract disputes alleging warranty issues, fraud or latent defects) likewise shall be filed within two (2) years after the accrual of the contract claim. If an underlying contract entered into prior to the effective date of this part provides for time limitations for filing of contract disputes with the ODRA which differ from the aforesaid two (2) year period, the limitation periods in the contract shall control over the limitation period of this section. In no event will either party be permitted to file with the ODRA a contract dispute seeking an equitable adjustment or other damages after the contractor has accepted final contract payment, with the exception of FAA claims related to warranty issues, gross mistakes amounting to fraud or latent defects. FAA claims against the contractor based on warranty issues must be filed within the time specified under applicable contract warranty provisions. Any FAA claims against the contractor based on gross mistakes amounting to fraud or latent defects shall be filed with the ODRA within two (2) years of the date on which the FAA knew or should have known of the presence of the fraud or latent defect.

F. A party shall serve a copy of the contract dispute upon the other party, by means reasonably calculated to be received on the same day as the filing is to be received by the ODRA.

G. After filing the contract dispute, the contractor should seek informal resolution with the Contracting Officer.

H. The FAA requires continued performance with respect to contract disputes arising under this contract, in accordance with the provisions of the contract, pending a final FAA decision.

I. The FAA will pay interest on the amount found due and unpaid from (1) the date the Contracting Officer receives the contract dispute, or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on contract disputes shall be paid at the rate fixed by the Secretary of the Treasury that is applicable on the date the Contracting Officer receives the contract dispute and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary until payment is made. Interest will not accrue for more than one year.

J. Additional information and guidance about the ODRA dispute resolution process for contract disputes can be found on the ODRA website at <http://www.faa.gov>.

38. Organizational Conflict of Interest (07/2022) 6.3.47

A. The offeror or Contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest (OCI), as defined in the FAA Acquisition Management System, "Organizational Conflicts of Interest (3.1.7)", or that the Contractor has disclosed all such relevant information.

B. The offeror or Contractor agrees that if an actual or potential OCI is discovered after award, the Contractor must make a full disclosure in writing to the Contracting Officer. The disclosure must include a mitigation plan describing actions the Contractor has taken or proposes to take to avoid, mitigate, or neutralize the actual or potential conflict. Changes in the Contractor's relationships due to mergers, consolidations or any unanticipated circumstances may create an unacceptable organizational conflict of interest which may necessitate disclosure.

C. The FAA reserves the right to review and audit OCI mitigation plans as needed after award, and to reject mitigation plans if the OCI, in the opinion of the Contracting Officer, cannot be avoided, or mitigated.

D. The Contracting Officer may terminate this contract for convenience in whole or in part, if it deems such termination necessary to avoid an OCI. If the Contractor was aware of a potential OCI prior to award or discovered an actual or potential conflict after award and did not disclose or misrepresented relevant information to the Contracting Officer, the Government may terminate this contract for default, debar the Contractor from government contracting, or pursue such other remedies as may be permitted by law or this contract.

E. The Contractor further agrees to insert provisions which must conform substantially to the language of this clause including this paragraph (d) in any subcontract or consultant agreement hereunder.

39. System for Award Management - Real Property (SAM Waiver) (09/2021) 6.4.1 The System for Award Management (SAM) is the Government's required method to receive vendor information. However, you have been granted an exception to SAM and therefore must provide your initial payment information and any future changes to your payment information to the RECO on a completed and signed "Vendor Miscellaneous Payment Information" form, together with any other required notice under this lease.

40. Payment by Electronic Funds Transfer (09/2021) 6.4.2 All payments by the Government under this Contract will be made by electronic funds transfer (EFT). The Government will make payment by EFT through the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association. The rules governing federal payments through the ACH are contained in 31 CFR Part 210. The Lessor is responsible for maintaining correct payment information with the Government. If the Lessor's EFT information is incorrect or outdated, the Government is not required to make payments to the Lessor until correct/current EFT information is submitted to the Government for payment distribution.

41. **Wiring for Telephones (09/2021) 6.5.17** The Government reserves the right to provide its own telephone service in the space to be leased. It may have inside wiring and telephone equipment installed by the local telephone company or a private contractor. Alternately, the Government may consider using inside wiring installed by the Lessor, if available. However, the final decision will be made by the Government.
42. **Installation of Antennas, Cables & Other Appurtenances (09/2021) 6.5.18** The Government shall have the right to install, operate and maintain antennas, wires and supporting structures, including any linking wires, connecting cables and conduits atop and within buildings and structures, or at other locations, as deemed necessary by the Government. The Government will coordinate with the Lessor when installing antennas, cables, and other appurtenances.
43. **Doors (09/2021) 6.6.1** Exterior doors must be weather tight, equipped with cylinder locks and door checks, automatic door closures and open outward. The Lessor must furnish the Government at least two master keys and two keys for each lock. Interior doors must be solid cored and at least 32 by 80 inches with a minimum opening of 32 inches and be of sturdy construction. Fire doors must conform to NFPA Standard No. 80. As designated by the Government, doors must be equipped with non-removable hinge pins, and locks with 7-pin removable cores. The Government shall provide cores. Locks, locking arrangements and latches must be in accordance with local building and fire codes, as well as OSHA 29 CFR 1910.
44. **Lighting (09/2021) 6.6.2** Modern, diffused, energy efficient fixtures must be provided that maintain a uniform lighting level of 50 foot candles at working surfaces. Emergency lighting must provide at least 0.5 foot candles of illumination throughout the exit path, including exit access routes, exit stairways, or other routes such as passageways to the outside of the building. Additionally, normal and emergency egress lighting must comply with the requirements of local building and fire codes, as well as, the Life Safety Code NFPA 101.
45. **Adhesives and Sealants (09/2021) 6.6.3** The Lessor shall use adhesives and sealants that contain no formaldehyde, asbestos, polychlorinated biphenyls (PCBs), or heavy metals.
46. **Ceilings (09/2021) 6.6.4** Ceilings must have acoustical treatment with a flame spread of 25 or less and smoke development rating of 50 or less.
47. **Floor Load (09/2021) 6.6.5** All adjoining floor areas shall be:
- A. Of a common level not varying more than 1/4 inch over a 10-foot, 0-inch horizontal run in accordance with the American Concrete Institute standards,
 - B. Non-slip, and
 - C. Accepted by the RECO.

Under floor surfaces shall be smooth and level. Office areas shall have a minimum live load capacity of 50 pounds per square foot plus 20 pounds per square foot for moveable partitions. Storage areas shall have a minimum live load capacity of 100 pounds per square foot including moveable partitions. A report showing the floor load capacity, at no cost to the Government, by a registered

professional engineer may be required by the RECO. Calculations and structural drawings may also be required.

48. Painting (09/2021) 6.6.6 DELETED

49. Display Advertising (09/2021) 6.6.7 If the leased premises are solely for Government use, no advertising matter shall be constructed on or over the premises, unless authorized by the RECO.

50. Erection of Signs (07/2022) 6.6.8 The Government has the right to erect on or attach to the Lessor's premises such signs as may be required to clearly identify the Government's facility or to post Government policies, rules, and regulations. Signs so erected will remain the property of the Government and will be removed from the premises upon termination of the lease.

51. Window and Floor Covering 6.6.9 All exterior windows shall be equipped with window covering. Floors will be carpeted with a commercial grade of carpet acceptable (carpet tiles or carpet broadloom) to the Government. Existing floor and window coverings may be accepted at the discretion of the RECO; however, prior to occupancy all carpeting and window coverings shall be cleaned.

At no additional cost to the Government, the Lessor shall replace carpeting any time during the lease when:

A. Backing or underlayment is exposed,

B. The condition of the carpet is such that it presents a clear and present danger to pedestrians. Replacement includes moving and return of furniture including dismantling, moving and re-assembling the Government's systems furniture if directed by the Government.

52. Seismic Safety for Existing Building (09/2021) 6.6.10 All existing buildings leased by the Government under this contract must meet the minimum acceptable performance seismic standard of 'Life Safety' as specified in Section 2.2 of Standards of Seismic Safety for Existing Federally Owned or Leased Buildings and Commentary issued by the Interagency Committee on Seismic Safety in Construction as ICSSC Recommended Practice (RP-8), Seismic Standards for Existing Federally Owned and Leased Buildings, Dec 2011. RP-8 is available online and in print from the National Institute of Standards and Technology as NISTIR GCR 11-917-12.

Compliance with Life Safety: The Lessor shall provide proof of compliance in the form of a written certification by an independent licensed structural engineer that the building was designed, built and maintained to the requirements of RP-8. The structural engineer certification shall be in the format of the Government-provided "Life Safety Compliance/Seismic Certification" form. If the building cannot be certified in accordance with RP-8, the structural engineer must evaluate the building using the American Society for Civil Engineers ASCE/SEI 41-13, Seismic Evaluation and Retrofit of Existing Buildings and attach the evaluation to the "Life Safety Compliance/Seismic Certification" form. Buildings meeting the requirements of ASCE/SEI 41-13 using a safety objective of 'Life Safety' are considered to meet the Government's requirement. Alternatively, if the building qualifies as a Benchmark Building in accordance with RP-8 and as certified on the "Life Safety Compliance/Seismic Certification" form, it will be deemed to meet minimum seismic requirements.

In the event a building with a certification of seismic compliance is occupied by the Government and is later determined to not meet the standard indicated on the "Life Safety Compliance/Seismic Certification" form, the Government at its discretion may require the Lessor to meet the agreed upon standard or may terminate this Lease upon giving written notice, with no cost accruing to the Government, notwithstanding any other agreements contained in this Lease.

53. Seismic Safety for Equipment (09/2021) 6.6.12 All Lessor-installed equipment, either Government provided or Lessor provided, shall be installed in strict accordance with the latest available edition of the International Building Code (IBC) at the time of execution of this contract and the DOT Specification FAA-G-2100H to ensure proper anchoring to protect personnel during a seismic event.

54. Services, Utilities, and Maintenance of Premises (07/2022) 6.7.1 The Lessor will maintain the demised premises, including but not limited to, the building grounds, all equipment, fixtures and appurtenances furnished by the Lessor under this Lease, in a good, clean and tenantable condition. The Lessor will maintain landscape plants, lawns, walkways, and parking areas. The Lessor will also remove snow, ice, and any other obstructions from the entrances, walkways, and parking areas around the premises, prior to and during normal business hours set forth below.

The Lessor will provide the labor, materials, equipment and supervision necessary to ensure good repair and tenantable condition.

The Lessor must provide services, utilities, and maintenance daily, extending from 6am to 6pm except Saturday, Sunday and federal holidays.

Utility and maintenance services supplied to space that houses technical equipment will be supplied twenty-four (24) hours per day, seven (7) days per week.

The Government has the right to use appurtenant areas and facilities. The Government has unlimited access to the leased premises 24 hours per day, seven days per week, including, as applicable, the access to, and use of, electrical services, toilets, lights, elevators, and Government office machines at no additional cost. Such access allows the Government to service Government-owned technical equipment, or to perform other mission-critical related duties, as it determines necessary in its sole and absolute discretion.

In addition to such other services as are set forth elsewhere in this Contract, the Lessor will provide the following:

- A. Electricity,
- B. Water (hot and cold) and sewer
- C. Potable water (see "Drinking Water" clause)
- D. Restroom cleaning and supplies, daily
- E. Window washing twice yearly
- F. Initial and replacement lamps, tubes and ballasts
- G. Exterior and interior door locks and hardware – designed to accept 7-pin removable cores supplied by the Government; and
- H. RESERVED.

55. **Utilities not provided by the Lessor (09/2021) 6.7.1-2** If the cost of utilities is not included as part of the rental consideration, the Lessor must specify which utilities are not included. For those utilities that are not included as part of the rental consideration, the Lessor will provide separate meters for utilities to be paid for by the Government. Proration is not permissible. Prior to occupancy by the Government, the Lessor will furnish the RECO written verification of the meter numbers and certification that these meters will measure FAA usage only. The Lessor will notify the RECO of any changes in meter numbers or meter configuration during FAA occupancy.
56. **Janitorial Services (09/2021) 6.7.2** The Lessor shall provide janitorial services for the leased space, public areas, entrances, and all other common areas and shall provide replacement of supplies.

A. Selection of Cleaning Products and Equipment – The Lessor must use environmentally preferable janitorial cleaning products, such as those that meet or are equivalent to Green Seal Standard GS-37 and/or the EPA Safer Choice label.

B. The Lessor shall provide to facility management the FAA Safety Data Sheets (SDS) for all chemicals used for cleaning purposes prior to their use at the facility.

i. Selection of Paper Products – The Lessor shall select paper and paper products (i.e., bathroom tissue and paper towels) with recycled content conforming to the Environmental Protection Agency's (EPA) Comprehensive Procurement Guideline (CPG).

ii. Schedule of Cleaning – Cleaning shall be performed after the hours defined in this Lease, unless cleaning during official duty hours is specified as a special requirement. The Lessor shall provide the schedule no later than 7 calendar days after occupancy of the space for the required cleaning services and their frequencies. A schedule is set forth below:

a. Daily:

1. Sweep floors using chemically treated absorbent or dusting tools.
2. Vacuum all carpeted areas, as needed.
3. Empty waste baskets and containers; dispose of waste paper, trash, and other extraneous materials.
4. Clean restrooms:
 - a. Clean restroom fixtures and chrome fittings.
 - b. Clean and refill all dispensers (including deodorant material)
 - c. Wet mop restroom floors.
 - d. Sanitize sinks, toilets, toilet seats, and urinals.
 - e. Spot wash walls, partitions, and doors.
5. Furnish and maintain constant supply of deodorant material and paper products.
6. Wash all drinking fountains.
7. Refill hand sanitizer dispensers in common areas, where applicable.

b. Weekly:

1. Dust counters, file cabinets, and telephones, and surfaces of all office furniture, fixtures, and window sills (except desk tops).
2. Damp mop all non-carpeted floors.
3. Vacuum all carpeted areas.

c. Monthly:

1. Wash waste baskets.
2. Wax and buff all non-carpeted floors.
3. Clean or wash walls as needed to present a neat appearance.
4. Dust all ledges and flat surfaces within reach.
5. Dust and clean all light fixtures.
6. Dust and clean all window blinds.
7. Wash restroom walls, partitions, and doors.

d. Annually

1. Strip old wax from all floor space and re-wax.
2. Shampoo all carpeted floors.

Within 60 days after occupancy by the Government, the Lessor shall provide the RECO with a detailed written schedule of all periodic services and maintenance to be performed other than daily, weekly, or monthly.

57. **HVAC (09/2021) 6.7.3** All heating, ventilation and air-conditioning systems that service the leased space must maintain a temperature range of 68-72 degrees Fahrenheit year-round or as dictated in the most recent version of ASHRAE Standard 62, "Ventilation for Acceptable Indoor Air Quality" and ASHRAE Standard 55, "Thermal Environmental Conditions for Human Occupancy". These temperatures must be maintained during hours of operation (as dictated by the lease) throughout the leased premises and service areas regardless of outside temperatures. An automatic control system will be provided to ensure compliance with heating and air conditioning provisions included in this contract.

In order to ensure that there is no degradation of air quality or air flow in the leased premises during the term of the lease, Lessor agrees to perform preventative maintenance on all HVAC units in accordance with the corresponding manufacturers operations and maintenance manuals (e.g. check for defects, lubricate, make adjustments, change the filters, cleaned and make other necessary service requirements). Lessor also agrees to service the VAV boxes annually (on or before each lease anniversary date) and provide the service date to the RECO and FAA facility manager. Such service will include checking the temperature ranges, checking all speeds on each fan, cleaning the fans and other components, replacing defective parts and completing other necessary repairs and maintenance.

58. **Landscaping (09/2021) 6.7.4**

A. Where conditions permit, the site shall be landscaped for low maintenance and water conservation with plants that are either native or well-adapted to local growing conditions.

- B. Landscape management practices shall prevent or minimize pollution and storm water runoff by:
- i. Employing practices which avoid or minimize the need for fertilizers and pesticides;
 - ii. Prohibiting the use of the 2,4-Dichlorophenoxyacetic Acid (2,4-D) herbicide and organophosphates; and
 - iii. Composting/recycling all yard waste.

C. The Lessor shall use landscaping products with recycled content required by Environmental Protection Agency's (EPA's) Comprehensive Procurement Guidelines (CPG) for landscaping products. Refer to EPA's CPG web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.

59. **Pest Control (09/2021) 6.7.5** Pesticide application to exterminate and control pests within the leased premises can be performed per periodic schedule for preventative maintenance and according to need with 24-hour notification to the FAA facility management. Prior to any addition/change in type of pesticides or other chemical pest control, Lessor must provide 48-hour written notice with applicable Safety Data Sheet(s) (SDS) to be provided to the FAA facility management. Herbicides/pesticides are not to be applied near the outside air intakes of the building when the HVAC system is in operation, nor within the leased premises during normal working hours or when the HVAC system is in operation.

60. **Fire and Life Safety Requirements (09/2021) 6.8.3** The facility, its systems and appurtenances must be in compliance with the following fire and life safety (FLS) requirements:

A. Construction features of the building must comply with state and local building codes in effect at the time of construction or most recent alteration.

B. Maintenance and operations of the building must comply with the current edition of state and local fire safety and fire prevention codes.

C. Construction features, maintenance and operations of the building must meet or exceed the minimum level of fire and life safety specified by OSHA 29 CFR 1910.

Where compliance with the literal requirements of these standards has not been achieved, the Lessor must document, in writing to the Government, the specific deviation(s) from these standards and the equivalencies or alternative methods used by the Lessor as alternative methods of compliance. Each approach used as an alternative method of compliance must be documented in accordance with the Equivalency and Technical Documentation requirements of NFPA 101, signed by a Fire Protection Engineer, licensed in the subject property's state, and a copy must be provided to the RECO.

As provided in this section, all codes, standards, orders and directives refer to the current edition in place at the signing of this contract. If construction or alterations to the premises are undertaken at any time during the term of this contract, fire protection and life safety systems must be brought into compliance where required by applicable codes and standards according to the then-current edition of local codes and standards and all requirements of OSHA 29 CFR 1910. The party initiating the construction or alterations is responsible for funding the upgrade of fire and life safety systems, construction or alteration to the facility must never decrease the level of fire and life safety provided.

Regardless of local code requirements, when the premises (including garage areas under contract by the Government) is on the 6th floor or above, or below grade, automatic sprinklers are required. All Airport Traffic Control Towers must meet the requirements of OSHA's Alternate Standard for Fire Safety in Airport Traffic Control Towers and the NFPA 101. Furthermore, buildings serving National Airspace System (NAS) air traffic control operations and constructed after June 2012, must be fully protected with an automatic, electrically supervised sprinkler system designed and installed in accordance with the requirements of NFPA 13.

When space is located in multi-tenant buildings, the Lessor is responsible for the following:

- i. Development of a building Emergency Action Plan (EAP) and Fire Prevention Plan.
- ii. Publishing and making copies of the EAP and Fire Prevention Plan, and making them available to all FAA occupants.
- iii. Conducting fire or other emergency evacuation drills, at least annually.
- iv. Conducting review and modification of the EAP and Fire Prevention Plan at least annually.
- v. Inviting FAA representation to develop, review and modify the EAP and Fire Prevention Plan.

61. Fall Protection (09/2021) 6.8.4 The Contractor must ensure proper fall protection safety systems are in place for all work areas where Government personnel are required to perform work at four feet or more above the next lowest level on fixed ladders and within access points to elevated work areas in accordance with FAA Order 3900.19, FAA Occupational Safety and Health Policy, 29 CFR 1910, Occupational Safety and Health Standards (General Industry), 29 CFR 1926 Subpart M, Safety and Health Regulations for Construction, and applicable regulatory required American National Standard Institute (ANSI) Standards. All such elevated work surfaces (platforms, catwalks, roofs, etc.) must have OSHA compliant guardrails, railings, toe boards and/or parapets where applicable to meet OSHA and ANSI requirements as referenced herein.

62. Environmental and Occupational Safety and Health (EOSH) Requirements (09/2021) 6.8.5 The Contractor must provide space, services, equipment, and conditions that comply with the following EOSH standards:

A. 29 CFR 1910, Occupational Safety and Health Administration (OSHA) Standards (General Industry)

B. 29 CFR 1926, Safety and Health Standards (Construction)

C. National Fire Protection Association (NFPA) 101, Life Safety Code

D. FAA Order 3900.19, FAA Occupational and Health Policy

E. FAA Standard HF-STD-001, Human Factors Design Standard

F. National Fire Protection Association (NFPA) 70, National Electrical Code, and NFPA 70E, Electrical Safety in the Workplace

G. Local and state EOSH regulations

H. Local and state fire codes and building codes.

Federal, state and local EOSH (OSHA and EPA) standards and building codes must be complied with when accomplishing any cleaning, construction, renovation, remodeling, maintenance activities or testing done in or on the leased premises and areas connected to or integrated with the premises. Additionally, whenever FAA standards require work processes or precautions to be provided, the Contractor will coordinate with the FAA before and during the work so that the proper requirements are met.

Any equipment designed, installed, or used that presents a potential safety hazard shall be marked with appropriate warning labels or placards, in accordance with 29 CFR 1910.145, Specifications for Accident Prevention Signs and Tags, FAA HF-STD-001, Human Factors Design Standard, Chapter 12.16, Safety Labels and Placards, American National Standards Institute (ANSI) Standard Z535.4, Product Safety Signs and Labels, and FAA-G-2100H, Electronic Equipment, General Requirements, Section 3.3.5.4.

63. Recycling (09/2021) 6.8.6 Where state or local law, code, or ordinance requires recycling programs (including those for mercury containing lamps) for the space, the Contractor shall comply with state and/or local law, code, or ordinance. In all other cases, the Contractor must establish a recycling program for paper, corrugated cardboard, glass, plastics, and metals to the extent practicable and where local markets for those recovered materials exist. The Contractor agrees, upon request, to provide the Government with additional information concerning recycling programs maintained in the building and in the space after lease execution.

64. Indoor Air Quality (09/2021) 6.8.7 The Contractor must control contaminants at the source and/or operate the space in such a manner that the indicator levels are not exceeded for carbon monoxide (CO), carbon dioxide (CO₂), and formaldehyde (CH₂O). The indicator levels for office area are as follows: CO less than 5 parts per million (PPM); CO₂ - 700 PPM above outdoor air; CH₂O - 0.027 PPM. All indoor air contaminant levels in the space must be kept below appropriate OSHA regulations or OSHA required consensus standards. Air quality systems cleaning is required to prevent the growth of mold, mildew and bacteria. Any visual evidence of these will require immediate sampling and remediation. Moisture/standing water must be controlled to prevent the growth of these.

During working hours, ventilation must be provided in accordance with the latest edition of ANSI/American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) Standard 62, Ventilation for Acceptable Indoor Air Quality and ASHRAE Standard 55, Thermal Environmental Conditions for Human Occupancy.

The Contractor must investigate indoor air quality (IAQ) complaints immediately and must implement controls including alteration of building operating procedures (e.g., adjusting air intakes, adjusting air distribution, cleaning and maintaining heating, ventilation and air conditioning (HVAC) systems, etc.). The Government is responsible for addressing IAQ problems resulting from its own activities.

The Contractor must provide SDS to FAA facility management for all chemicals and cleaning solutions at least 72 hours prior to their use in the FAA spaces or other areas of the buildings that might affect air quality in the FAA space(s). Materials should contain low or no Volatile Organic Compounds (VOC) and additional ventilation may be required when using chemicals and cleaning solutions.

65. Mold Growth Identification and Control (09/2021) 6.8.8 The contractor must prevent mold growth and excessive levels of moisture and humidity. Adequate air quality, moisture control and facility cleaning are required to prevent the growth of mold, mildew, and bacteria. Any visual evidence of mold requires immediate sampling and remediation by the contractor.

Following a water-intrusion event, the contractor must identify the water source and immediately implement water extraction and drying efforts. Once the water source is identified, the contractor must take action to prevent additional water damage and ensure that permanent fixes are in place prior to build-back and restoring building materials. Within 24-48 hours of water damage from clean water sources (e.g., water supply lines, rainwater, and snowmelt from rooftops), all building materials must be dried to a moisture level that will prevent mold growth.

All porous materials contaminated with sewage or other Category 2 (e.g., washing machine

overflows, toilet overflows, and non-feces waters) or Category 3 (sewage backups and overflows from beyond toilet traps, feces, floodwaters, and groundwater intrusion) water sources must be discarded. All non-porous material must be cleaned and disinfected.

Mold remediation and cleaning must be conducted using recognized industry methods and practices (e.g. Institute of Inspection, Cleaning and Restoration Certification (IICRC) S500 Standard and Reference Guide for Professional Water Damage Restoration, IICRC-S520 Standard and Reference Guide for Professional Mold Remediation, 2008, and National Air Duct Cleaners Association (NADCA): Assessment, Cleaning and Restoration of HVAC Systems, ACR 2006). State requirements concerning mold remediation, contractors training and licensing must be followed.

The contractor must coordinate with the FAA facility management and RECO regarding all mold remediation operations. The FAA must be afforded the opportunity to provide input in the mold remediation process. Biocides must be used cautiously and in accordance with EPA requirements. A Certified Industrial Hygienist (CIH) must pre-approve the use of EPA-approved biocides in air conveyance systems.

- 66. Drinking Water (09/2021) 6.8.9** The contractor must provide drinking water in the space that meets the standards prescribed in the Safe Drinking Water Act, 42 U.S.C. 300. Acceptable potable water must meet EPA's primary drinking water standards with contaminants being less than established Maximum Contaminant Levels (MCLs) and action levels. In cases where state and/or local authorities have their own standards, potable water must meet those or federal standards, whichever is more stringent.

The contractor must test the sources of drinking water in the space (faucets, drinking water fountains, ice machines, etc.) on a periodic basis, but no less than every three (3) years, to ensure water quality (e.g., lead, copper, total coliforms). If the contractor performs plumbing and/or renovation work in the space that impacts the drinking water (i.e., replacement of water lines), the contractor must test the drinking water in the system affected by the plumbing and/or renovation work. If at any time, the FAA or contractor's drinking water test results are not acceptable under the EPA's primary drinking water, and/or state and local authorities' standards as described above, the Lessor must immediately correct the deficiencies. The contractor must notify the Government prior to performing all tests and provide a copy of any test report to the RECO and facility management or their designee.

- 67. Halon (09/2021) 6.8.10** Halon may not be used in any FAA space.

- 68. Radon Air Levels (09/2021) 6.8.11** Contractor must provide the FAA with a Radon Evaluation Report for the facility when requested. Radon air levels in FAA premises must not exceed the level of 4.0 picocuries per liter (pCi/L). If radon levels are found to be at or above 4.0 pCi/L, the contractor must immediately notify the RECO and FAA facility management of its finding and its plan of corrective action, including testing, to ensure radon air levels are maintained below 4.0 pCi/L at all times. Radon testing shall be done by a radon professional certified according to state and local requirements using US EPA approved testing methods.

- 69. Asbestos (09/2021) 6.8.12** The contractor must ensure that FAA personnel are protected from asbestos hazards, in accordance with:

- A. 29 CFR 1910.1001, Asbestos (General Industry)
- B. 29 CFR 1926.1101, Asbestos (Construction)
- C. 40 CFR 763, Subpart E, Asbestos Containing Materials in Schools, Asbestos Hazard Emergency Response Act (AHERA)
- D. 40 CFR 61, Subpart M, National Emissions Standards for Hazardous Air Pollutants (NESHAP)
- E. State and local asbestos regulations

The contractor warrants that, notwithstanding inspection and acceptance by the Government or any provision concerning the conclusiveness thereof, all space under this contract, including, but not limited to; space above suspended ceilings in the leased space, air plenums elsewhere in the building that service the leased space, engineering spaces in the same ventilation zone as the leased space, public spaces in the same ventilation zone as the leased space, and public spaces and common use spaces (e.g., lobbies, hallways) will, at the time of acceptance and during the term of this Lease, including all extensions thereof, comply with asbestos regulatory requirements.

All facilities are required to have a current asbestos building survey or an asbestos free certification (in accordance with federal, state or local regulations, and including sampling of all materials that have the potential to contain asbestos) conducted by a qualified inspector, including a visual examination and sampling of building materials. All asbestos identification survey reports must be sent to the RECO and FAA facility management.

The RECO must notify the contractor in writing of any failure to comply with asbestos requirements, within five (5) days after the discovery thereof. If Asbestos Containing Materials (ACMs) are found to be in the leased space, either prior to acceptance or during the course of the lease agreement, the Government reserves the right to require the contractor, at no cost to the Government, to take corrective action as required by OSHA, EPA, state and local requirements. In accordance with these regulations, the contractor must post asbestos warning labels and signs in accordance with OSHA regulations.

In addition, all construction by the contractor is required to comply with OSHA, EPA, state and local requirements for asbestos. Prior to the start of any construction, renovation or maintenance activities that impact the building, the contractor must determine whether ACM will or could be released as part of the work. If ACM will or could be released, the contractor must notify the FAA and take corrective actions to prevent FAA employees from exposure to asbestos fibers. Corrective actions must be coordinated with the FAA at least 30 days prior to the start of any construction, renovation or maintenance activities that impact the building.

After ACM remediation is performed, the contractor must adhere to regulatory required post-asbestos abatement air monitoring requirements. As a part of this process, the contractor must provide the RECO and the FAA facility manager with an asbestos re-inspection report indicating the location and condition of all remaining ACM in the FAA leased areas and common areas of the facility. If the contractor supplies the janitorial or maintenance contracts, those employees must also be informed of the presence and location of asbestos at the facility.

“Corrective Action”, as used in this clause, means the removal, encapsulation or enclosure of ACM. All corrective actions must be conducted by licensed asbestos abatement contractors in accordance with OSHA, EPA, state, local and FAA requirements.

70. **Warranty of Space (09/2021) 6.8.13** The contractor warrants that all space leased to the Government under this contract complies with federal, state, and local regulations. The space is not limited to that set forth in this contract, but also includes space above suspended ceilings in the leased space, air plenums elsewhere in the building that service the leased space, engineering spaces in the same ventilation zone as the leased space, public spaces in the same ventilation zone as the leased space, and public spaces and common use spaces (e.g., lobbies, hallways).
71. **Electrical Safety (09/2021) 6.8.14** The contractor must ensure electrical safety requirements are met, including grounding, bonding, shielding, control of electrostatic discharge (ESD), and lightning protection requirements, in accordance with:

- A. 29 CFR 1910, Subpart S, Electrical
- B. FAA Standard HF-STD-001, Human Factors Design Standard, Chapter 12.4, Electrical Hazards
- C. DOT Specification FAA-G-2100H, Electronic Equipment, General Requirements
- D. National Fire Protection Association (NFPA) 70, National Electrical Code
- E. NFPA 70E, Electrical Safety in the Workplace
- F. American National Standards Institute/Institute of Electrical and Electronics Engineers (ANSI/IEEE) Standard 1100-2005, Recommended Practice for Powering and Grounding Electrical Equipment
- G. DOT Standard FAA-STD-019F, Lightning and Surge Protection, Grounding, Bonding and Shielding Requirements for Facilities and Equipment

The contractor must ensure that electrical equipment and infrastructure meets minimum clear working space requirements in accordance with 29 CFR 1910.303 and NFPA 70 Article 110.26, and is maintained and documented in accordance with NFPA 70E. Any change in the electrical equipment requires review of the current arc flash warning labels to determine if the arc flash warning labels posted meet the current safety requirements.

72. **Facility Security (09/2021) 6.9.1** Security requirements for Government occupied space must meet minimum-security accreditation standards for the type of facility covered by this Lease. The FAA Facility Security Management Program defines facility security accreditation standard levels. The security requirements identified below are tailored specifically for the type of facility covered by this Lease. The Lessor shall provide or make accommodation to provide for all the security requirements listed herein for the leased premises covered by this Lease agreement:

None

The local Servicing Security Element (SSE) will determine any additional security upgrades that are required to meet accreditation and shall conduct a final security assessment of the building. If that assessment indicates that additional upgrades are required to the Premises, those upgrades shall be contracted and paid for under separate contract at the Government's expense and subject to the availability of funds. The Lessor shall provide maintenance services to the security upgrades installed by the Lessor within the leased premises and covered under this Lease.

73. **Foreign Nationals as Contractor Employees (04/2022) 6.9.2 a) Definition.** "Foreign National" is any citizen or national of a country other than the United States who has not immigrated to the United States and is not a Legal Permanent Resident (LPR) of the United States.

- b) Each contractor or subcontractor employee under this contract, having access to FAA facilities, sensitive information, or resources must be a citizen of the United States, or a foreign national who has been lawfully admitted for permanent residence as evidenced by a Permanent Resident Card I-551, or who presents other evidence from the U.S. Citizenship and Immigration Service that employment must not affect his/her immigration status.
- c) Foreign Nationals proposed under this contract must meet the following conditions in accordance with FAA Order 1600.1F, chapter 8, paragraph 10:
 - (1) Must have resided within the United States for a minimum of the last three (3) years unless a waiver of this requirement is requested and approved in accordance with the requirements stated in FAA Order 1600.1F, chapter 8, paragraph 10;
 - (2) A risk or sensitivity level designation can be made for the position; and
 - (3) The appropriate security-related background investigation can be adequately conducted, as determined by the Office of Security and Hazardous Materials (ASH) Office of Personnel Security (AXP).
- d) Foreign Nationals proposed under this contract must meet the following additional conditions:
 - (1) Provide a current unexpired passport and their place of birth in order to begin the background investigation process in accordance with FAA Order 1600.1F, Personnel Security Program; and,
 - (2) Successfully pass an export control review as outlined in FAA Order 1240.13 FAA Export Control Compliance.
- e) Interim suitability requirements may not be applied unless the position is low/moderate in risk, and/or temporary, and/or is not in a critical area position.

74. Real Estate Contractor Personnel Suitability Requirements (04/2022) 6.9.3

- 1. No contractor employee, subcontractor, or consultant will be allowed

unescorted access to any FAA facility;
access to FAA classified information;
access to FAA *Sensitive Unclassified Information (SUI); or
access to FAA systems or resources

unless they have been authorized by the FAA Office of Personnel Security (AXP).

*SUI is defined as unclassified information, in any form including print, electronic, visual, or aural forms, which is protected from uncontrolled release to persons outside the FAA and indiscriminate dissemination within the FAA. It includes aviation security, homeland security, and protected critical infrastructure information. SUI may include information that may qualify for withholding from the public under the Freedom of Information Act (FOIA).

- 2. Consistent with FAA Order 1600.1F, AXP must approve designated risk levels for the positions under the contract, to be determined by the FAA Operating Office (the organization with the requirement) in coordination with the Contracting Officer (CO) or designee, using the OPM Position Designation Automated Tool (PD Tool).

- 3. For all contractor employees, subcontractors, or consultants requiring access to FAA facilities, classified information, sensitive unclassified information, systems, or resources, the prime contractor must submit to their responsible AXP office and CO or their designee, a point of contact (POC) who

will be responsible for entering all contractor applicant data, to include subcontractor data, into the Vendor Applicant Process (VAP) system (AXP will provide the user with access to the VAP) for security processing. The contractor must not enter contractor employees in VAP unless they have a legitimate need for access to FAA facilities, classified information, sensitive unclassified information and/or systems according to the terms of the contract. Contractor employees who will not require the aforementioned types of access or who would be under escort of other badged personnel are not to be entered in VAP.

4. If an applicant has had a previous US Government conducted background investigation, which meets the investigative requirements for the position and meets established reciprocity guidelines, it will be accepted by the FAA. The FAA reserves the right to conduct further investigations, including requesting additional information from the applicant, if necessary.

5. If no previous investigation exists, or if the previous investigation does not meet investigative requirements for the position, AXP will:

- a. Send the applicant an e-mail (this step may be delegated to VAP POC) with instructions for completing investigative requirements;
- b. Instruct the applicant how to enter and complete a background investigation questionnaire through the electronic Questionnaires for Investigation Processing (eQIP) system;
- c. Provide where to upload, or send/fax applicable forms; and
- d. Provide instructions regarding fingerprinting (any fees associated with obtaining fingerprints are not the responsibility of the FAA).

The contractor employee must complete the investigative requirements and submit required material within 15-calendar days of receiving the e-mail from AXP. If items are submitted outside of the eQIP system, the contractor must submit the required information, referencing the contract number, to the AXP POC noted in the instruction email.

6. No contract employee, subcontractor, or consultant, identified as requiring a background investigation under the contract will work in any position unless AXP has authorized them to begin work. Authorization will be in the form of an Interim or Final Suitability email notification from AXP to the VAP POC and CO.

7. No contract employees, subcontractor, or consultant will be issued a FAA Personal Identity Verification (PIV) card, or other FAA issued ID card, unless they have been granted an Interim or Final suitability from AXP.

8. The Contractor VAP POC must inform the CO or their designee and submit a VAP removal record in VAP within twenty-four (24) hours after any contractor employee resigns, is terminated, transferred, or otherwise removed from the contract. If the FAA issued the contract employee a PIV card, or other ID card, the contractor must collect the card within twenty-four hours, and return it to AXP no later than five business-days after the employee's termination or transfer.

9. The CO or their designee will provide notice to the contractor within 24 hours after receipt of a determination that the contractor or its employee has not complied with security-related contract requirements, security-related FAA Orders, or if a contractor employee's conduct is objectionable or contrary to the public interest, or inconsistent with the best interest of national security. The notice will instruct the contractor to remove its employee's access to FAA premises or networks, or

otherwise remedy the contractor's performance.

10. The contractor must immediately comply with the CO or their designee's direction to remedy its security performance at the contractor's expense, including removing the employee from FAA premises and networks. If the contractor employee is working under an interim suitability authorization, the contractor must take appropriate action, including the removal of the contractor employee from working on the FAA contract, at their own expense. Once action has been taken, the contractor must report the action via the VAP within the timeframe prescribed in this clause.

11. After coordination with AXP, the CO or the FAA Facility Manager or their designee may require contractor employees to submit any other security information deemed reasonably necessary to protect the interests of the FAA. This includes submitting to additional fingerprinting, responding to letters of inquiry, and background reinvestigations required under Federal Investigative Standards. In this event, the contractor must provide, or cause each of its employees to provide, such security information to AXP. Failure to cooperate with security processing will result in an unfavorable suitability determination.

12. The contractor must retrieve a current roster report through VAP on a quarterly basis to ensure the roster is accurate, and immediately correct any discrepancies with the responsible AXP office. The prime contractor is responsible for the accuracy of their subcontractors' rosters as well.

13. Contractor employees subject to the requirements of this clause must take the FAA Security Awareness Virtual Initiative (SAVI) training within 90 days of reporting to work and annually thereafter. This training is available on the FAA's Electronic Learning Management System (eLMS). Contractors without access to eLMS please contact the FAA Facility Manager for a copy of the training.

14. The prime contractor must contact the CO or COR, and AXP within one business-day in the event an employee (who has been cleared for FAA access by AXP) is arrested (i.e., taken into custody by law enforcement for any offenses, other than minor traffic offenses) or is involved in theft of government property or the Contractor becomes aware of any information that may raise a question about the suitability of a contractor or subcontractor employee.

15. Failure to submit information required by this clause within the time required may be determined by the CO a material breach of the contract.

16. If subsequent to the effective date of this contract, the security classification or security requirements under this contract are changed by the Government and if the changes cause an increase or decrease in direct contract costs or otherwise affect any other term or condition of this contract, the contract will be subject to an equitable adjustment.

17. The contractor agrees to insert terms that conform substantially to the language of this clause, excluding any reference to the Changes clause of this contract, in all subcontracts under this contract that involve access and where the exceptions under FAA Order 1600.1F do not apply.

75. Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (04/2022) 6.9.5

(a) Definitions. As used in this clause--

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (e.g., connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (e.g., fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means—

- (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);
- (2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);
- (3) Telecommunications or video surveillance services provided by such entities or using such equipment; or
- (4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means—

- (1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;
- (2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled—
 - (i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or
 - (ii) For reasons relating to regional stability or surreptitious listening.
- (3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);
- (4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);
- (5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or
- (6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately

delivered (e.g., connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) Prohibition.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in AMS T3.6.4 A.17.e.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020 from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in AMS T3.6.4A.17.e. This prohibition applies to an entity that uses covered telecommunications equipment or services, including use not in support of the Government.

(c) Exceptions. This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system,

during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor must report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information. For indefinite delivery contracts, the Contractor must report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order.

(2) The Contractor must report the following information pursuant to paragraph (d)(1) of this clause:
(i) Within one business day from the date of such identification or notification: The contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the Contractor must describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) Subcontracts. The Contractor must insert the substance of this clause, including this paragraph (e), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

76. Covered Telecommunications Equipment or Services- Representations (09/2021) 6.9.5-1

(a) Definitions. As used in this provision, "covered telecommunications equipment or services" has the meaning per the "Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment" clause in this contract.

(b) Procedures. The offeror must review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for covered telecommunications equipment or services.

(c) Representations.

1. The offeror represents that it [REDACTED] does, [REDACTED] ☒ does not **provide** covered telecommunications equipment or services as part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument.
2. After conducting a reasonable inquiry for purposes of this representation, the offeror represents that it [REDACTED] does, [REDACTED] ☒ does not **use** covered telecommunications equipment or services, or any equipment, system, or service that uses telecommunications equipment or services.

77. Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (09/2021) 6.9.5-2

NOTE: The offeror must not complete the representation at paragraph (d)(1) in this provision if the offeror has represented that it does not provide covered telecommunications equipment or services as part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument in the provision "Covered Telecommunications Equipment or Services – Representation" (c)(1). Additionally, The offeror must not complete the

representation at paragraph (d)(2) in this provision if the offeror has represented that it does not use covered telecommunications equipment or services, or any equipment, system, or service that uses telecommunications equipment or services in the provision "Covered Telecommunications Equipment or Services – Representation" (c)(2).

PROVISION/CLAUSE: x

(a) Definitions. As used in this provision--

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause AMS clause 6.9.5, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) Prohibitions.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

Nothing in this prohibition will be construed to—

(i) Prohibit the head of the agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020 from entering into a contract or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential part of any system or as critical technology as part of any system. This prohibition applies to any entity that uses covered telecommunications equipment or services, including uses not in support of the Government.

Nothing in this prohibition will be construed to-

(i) Prohibit the head of the agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures: The offeror must review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from Federal awards for covered telecommunications equipment or services.

(d) Representations.

(1) The Offeror represents that it [] will, [] will not provide covered telecommunications equipment

or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation.

(2) After conducting a reasonable inquiry for purposes of this representation, the Offeror represents that it does ☐ does not ☒ USE covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror must provide the additional disclosure information required at paragraph (e) if the Offeror indicates "does".

(e) Disclosures. Disclosure for the representation in paragraph (d) (1) of this provision-
If the Offeror has responded "will" in the representation in paragraph (d) (1) of this provision, the Offeror must provide the following information as part of the offer—

(1) For covered equipment

- (i) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known;
- (ii) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and
- (iii) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b) (1) of this provision;

(2) For covered services-

- (i) If the service is related to item maintenance, a description of all covered telecommunications services offered (include on the item being maintained: brand, model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable; or
- (ii) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed uses of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

Disclosure for representation in paragraph (d) (2) of this provision. If the Offeror has responded "does" to paragraph (d)(2) of this provision, the offeror must provide the following information as part of the offer—

(3) For covered equipment

- (i) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known;
- (ii) A description of all covered telecommunications equipment offered (include brand; model number, such as original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable); and
- (iii) Explanation of the proposed use of covered telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b) (2) of this provision.

(4) For covered services-

- (i) If the service is related to item maintenance, a description of all covered telecommunications

services offered (include on the item being maintained: brand, model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or
(ii) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed uses of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

78. Cooperation with Defensive Counterintelligence Program Requirements (DCIP) (09/2021)
6.9.6

a. The FAA's Defensive Counterintelligence Program (DCIP) (AXI-310) detects, deters, and denies illicit human and technical intelligence collection activities as well as addressing other national security concerns. Such activities and concerns include, but are not limited to, activities conducted by, on behalf of, or otherwise supporting, foreign governments or elements thereof; entities or individuals that meet the definition of "foreign power" or "agent of a foreign power" in 50 U.S.C. § 1801; foreign organizations; foreign persons; international terrorist organizations or activities; or agents of any of the foregoing; or any other individuals or entities acting on behalf of, or otherwise in support of, any of the foregoing, against the FAA, its employees, facilities, equipment, systems, networks, operations, and information.

b. Consistent with FAA Order 1600.84 FAA Defensive Counterintelligence Program, the contractor is required to cooperate to the fullest extent possible in the following requirements:

1) Any authorized DCIP inquiry or Counterintelligence (CI) investigation connected with this contract requested by the FAA Office of Security and Hazardous Materials Safety (ASH) to include granting authorized ASH or outside investigative department or agency personnel access to contract information, records or contractor personnel;

2) All applicable FAA security requirements as required under the contract consistent with FAA policy and applicable Federal law;

3) When requested by the DCIP, and necessary to protect Controlled National Security Information (CNSI), Sensitive Unclassified Information (SUI), or otherwise protected information, contractor employees must sign a Defensive Counterintelligence Program Non-Disclosure Agreement (NDA) prior to being briefed on any information pertaining to a DCIP inquiry, CI investigation by another Department or Agency, or any other matter related to the DCIP. The NDA is located in Appendix C of the Order and in AMS Procurement Forms. Contractor employees are exempt from acknowledging any language in the NDA associated with unauthorized disclosure of received information that subjects FAA employees to personnel actions specified in the Human Resources Policy Manual (HRPM) Volume 4: Employee Relations ER-4.1 (4) and applicable collective bargaining agreements.

4) Contractors must first coordinate with the DCIP at ASH-CI-Notify@faa.gov before contacting any law enforcement or investigative agencies on any known or suspected counterintelligence or other national security concern described in Paragraph 1 of FAA Order 1600.84.

5) Contractors must notify the DCIP as soon as possible if any law enforcement or investigative agency contacts them directly on any matter covered by FAA Order 1600.84. If an employee receives a direct request from an outside-law enforcement or investigative agency for evidence related to a counterintelligence or other national security concern as described in Paragraph 1 of FAA Order 1600.84, the employee will refer the law enforcement or investigative agency to AXI-310.

6) Contractors must immediately notify the DCIP at ASH-CI-Notify@faa.gov, and the CO or their designee if their employees observe any of the following-

- a) Suspected or known acts of foreign intelligence collection activity against the FAA or its employees, systems, networks, operations, facilities, equipment, or information;
- b) Suspected or known espionage (See Appendix A of FAA Order 1600.84 for definition);
- c) Suspected or known unauthorized disclosure of CNSI, SUI, or otherwise protected information in the possession of the FAA by a FAA employee to a foreign government or element thereof, a foreign organization, an entity or individual that meets the definition of "foreign power" or "agent of a foreign power" in 50 U.S.C. § 1801, a foreign person, an international terrorist organization or activity, an agent of any of the foregoing, or any other individual or entity acting on behalf of or otherwise supporting any of the foregoing; or
- d) Suspected or known theft, unauthorized disclosure, or unauthorized amassing of CNSI, SUI, or otherwise protected information in the possession of the FAA known or suspected to be for the purpose of conveying it to a foreign government or element thereof, an entity or individual that meets the definition of "foreign power" or "agent of a foreign power" in 50 U.S.C. § 1801, a foreign organization, a foreign person, an international terrorist organization or activity, an agent of any of the foregoing, any other individual or entity acting on behalf of or otherwise supporting any of the foregoing, or an unknown recipient, or statements of intent by an FAA employee to engage in any such actions. SUI or otherwise protected unclassified information whose theft, unauthorized disclosure, or unauthorized amassing, for the purposes described in the preceding sentence, is of concern includes, but is not limited to:
 - i. Non-public information from an official FAA data network or information;
 - ii. Imagery;
 - iii. Technical specifications;
 - iv. Trade secrets;
 - v. Proprietary information;
 - vi. Sensitive Security Information (SSI); and
 - vii. Any other SUI
- e) Activities similar to those described in paragraphs b(6)(a)-(d) by, on behalf of, or otherwise supporting, potential lone wolf actors, malicious insiders, or transnational organizations of a national security concern.

If notification of the CO or their designee is not feasible owing to the CO and/or their designee being one of the suspicious actor(s), the contractor must notify the DCIP directly at the above email address if they observe any of the above activities.

7) Elicitation attempts. Elicitation is the strategic use of conversation to extract information from people without giving them the feeling they are being interrogated. It is a technique used to discreetly gather information. It is a conversation with a specific purpose: collect information that is not readily available and do so without raising suspicion that specific facts are being sought.

The conversation can be in person, over the phone, or in writing.

Contractors must immediately notify the DCIP at ASH-CI-Notify@faa.gov, and the CO and/or their designee if their employees experience any known or suspected direct (e.g., personal encounter or telephone) or indirect (e.g., electronic or written communication) elicitation or attempted elicitation of CNSI, SUI, or otherwise protected information in the possession of the FAA by any suspicious entity or person, regardless of ethnicity, nationality, or FAA employment status, as soon as possible,

but no later than 12 hours after the time of the incident, initial detection, or receipt of report, as applicable, or the next business day if the incident, initial detection, or receipt of report, as applicable, occurs on a weekend or holiday. Contractors must report these incidents regardless of where, when, or how the contact took place, or whether the employee was on or off duty. Suspicious activities include, but are not limited to:

- a) Direct or indirect contact or communication with a known or suspected foreign or foreign-affiliated person, or an unknown or unfamiliar person, seeking access to or disclosure of any CNSI, SUI, or otherwise protected information in the possession of the FAA for which such person does not meet the applicable access requirements, or that is outside the scope of their official duties;
- b) Direct or indirect contact or communication with a known or suspected foreign or foreign-affiliated person, or an unknown or unfamiliar person, seeking specific information about an FAA employee's official duty responsibilities, work projects, access to information, security clearance, travel plans, coworkers' identities, or Information Technology (IT) system credentials for which such person does not meet the applicable access requirements, or that is outside the scope of their official duties;
- c) Direct or indirect contact, communication, or observance of a known or suspected foreign or foreign-affiliated person, or an unknown or unfamiliar person, seeking unauthorized access to FAA employees, equipment, operations, systems, information, facilities, or networks, including through a Personal Electronic Device (PED);
- d) Direct or indirect contact, communication, or observance of a known or suspected foreign or foreign-affiliated person, or an unknown or unfamiliar person, introducing, or seeking to introduce, unauthorized digital media or software into any FAA equipment, facilities, systems, or networks, including through a PED;
- e) Offers of compensation, gifts, or favors in exchange for FAA information or access to such information, regardless of medium; or access to FAA employees, equipment, operations, facilities, systems, or networks;
- f) Threats, attempts to coerce, or attempts to exploit any FAA employee by a known or suspected foreign or foreign-affiliated person, or by an unknown or unfamiliar person, in order to illicitly acquire FAA information or access to FAA employees, equipment, operations, facilities, systems, information, or networks;
- g) Solicitation by any person of FAA information for which they do not meet the applicable access requirements or that is outside the scope of their official duties;
- h) A request by any person for access to FAA employees, facilities, equipment, operations, systems, information, or networks for which they do not meet the applicable access requirements or that is outside the scope of their official duties; and
- i) Suspicious or unexplained contact by any person with an FAA employee, where the person has suspicious or unexplained knowledge of the employee.

Unless requested by ASH, contractors must not disclose an elicitation attempt of the nature described above, in any other manner than to report the attempt to the CO or their designee and request that they report it to the DCIP. If that is not feasible, or if the CO or their designee are the suspicious actor(s), contractors may make these reports directly to the DCIP at the above email address. Contractors must not take any actions on their own initiative, as doing so may interfere with a DCIP inquiry or CI investigation.

- c. Failure to cooperate with any of the activities under section (b) above may be considered by the

FAA to be a material breach of the contract.

d. The Contractor is responsible for ensuring that the provisions of this clause flow down to its subsidiaries, subcontractors, and consultants performing this contract.

79. Zero Emissions Municipal Buildings and Operations Policy (ZEMBOP)

In 2022, the City Council adopted a Climate Action Plan (CAP) which calls for the elimination of all Greenhouse Gas (GHG) emissions from fossil fuel consumption in the City and aims for electricity to be generated from zero carbon sources by 2035.

Thereafter, the City Council adopted Council Policy 900-03, the Zero Emissions Municipal Buildings and Operations Policy (ZEMBOP) that includes certain requirements for leased facilities where the City is a landlord.

79.1 Tenant acknowledges and agrees that the ZEMBOP, as it may be amended from time to time, is hereby incorporated into this Lease by reference, and Tenant agrees to take any action to the extent required by ZEMBOP to achieve zero emissions as provided therein.

79.2 Tenant shall not install any new equipment or appliances which consume natural gas or other fossil fuel. Should the Tenant-maintained natural gas equipment present as of the Effective Date of this Lease require replacement, any replacement equipment installed must be electric and must not consume fossil fuels.

RESOLUTION NUMBER R- 315489
DATE OF FINAL PASSAGE APR 22 2024

A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN DIEGO APPROVING A RETROACTIVE FOUR-YEAR, FOUR-MONTH STANDARD SPACE LEASE WITH THE FEDERAL AVIATION ADMINISTRATION FOR 7,736 SQUARE FEET OF OFFICE SPACE LOCATED AT 8525 GIBBS DRIVE, SUITE 120, AND WAIVING APPLICATION OF COUNCIL POLICY 700-10 RELATED TO SECURITY DEPOSITS, LEASEHOLD IMPROVEMENTS, AND MAINTENANCE COSTS, AND COUNCIL POLICY 300-11 RELATED TO THE EMPLOYMENT OF FORMER CITY EMPLOYEES.

WHEREAS, the City of San Diego and Montgomery Field Two, LP (Master Lessee) entered into a Flat Rate Lease dated July 31, 1979, on file with the San Diego City Clerk as Document No. RR-766982 (Master Lease), for approximately 2.16 acres of land located at 8525 Gibbs Drive (Property); and

WHEREAS, the Master Lessee constructed an office building on the Property, and on October 1, 1988, subleased approximately 7,736 square feet of office space (Suite 120) to the United States of America Department of Transportation, Federal Aviation Administration (FAA); and

WHEREAS, the Master Lessee defaulted on the Master Lease in 2019 and the City terminated the Master Lease and all subleases on the Property, including the sublease with the FAA for Suite 120; and

WHEREAS, after the City terminated the Master Lease and subleases, City staff began negotiating a new short-term lease with the FAA to allow it to continue to occupy Suite 120 while the FAA looked for office space in another location; and

WHEREAS, the lease negotiations extended while the City and the FAA addressed issues related to the length of the proposed lease, the use of the FAA's standard lease form, environmental testing required by the FAA, and the City's compliance with various federal requirements; and

WHEREAS, shortly after concluding lease negotiations with the City, the FAA vacated Suite 120 on January 31, 2024; and

WHEREAS, federal rules require the FAA to have a lease with the City before the FAA can pay the rent it owes for its prior occupancy of Suite 120; and

WHEREAS, the City and the FAA propose a retroactive four-year, four-month Standard Space Lease (Lease) for Suite 120, with a term from August 7, 2019, through January 31, 2024, to compensate the City for the FAA's prior occupancy; and

WHEREAS, under Council Policy 700-10, the City obtained an appraisal of the Property to determine its fair market rent, and the rent negotiated by the City for the Lease is equal to or higher than the appraised fair market rent for Suite 120; and

WHEREAS, as specified in the proposed Lease (included in the docket materials accompanying this Resolution), the monthly rent will be \$18,812.29, for a total amount of \$1,011,474 owed during the term of the Lease; and

WHEREAS, Council Policy 700-10 requires City lessees to provide security deposits, remove leasehold improvements at the termination of a lease, and pay for maintenance and utilities on leased premises, and the Lease does not include these requirements; and

WHEREAS, Council Policy 300-11 requires City leases to require termination if the lessee employs a former City employee who in the prior twelve months participated in

negotiations with the lessee or otherwise influenced any lease recommendations, and the Lease does not include this requirement; and

WHEREAS, City staff recommends waiving the requirements in Council Policies 700-10 and 300-11 specified above because the FAA required the use of its standard lease form which does not include the City's standard language, the Lease term will have expired as of January 31, 2024, and approval of the Lease will allow the FAA to pay the City \$1,011,474 in rent it owes for its prior occupancy of Suite 120; and

WHEREAS, the Lease is not subject to the Surplus Land Act, Government Code sections 54220 through 54234, because it (a) is not for a term longer than 15 years, including renewal options; and (b) does not involve any development or demolition; and

WHEREAS, the Office of the City Attorney has drafted this Resolution based on the information provided by City staff (including information provided by affected third parties and verified by City staff), with the understanding that this information is complete, true, and accurate; NOW, THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego, as follows:

1. The City Council waives the requirements in Council Policy 700-10, Part N on page 13 relating to leasehold improvements, Part O on page 14 relating to maintenance and utilities responsibility, and Part T on page 15 relating to security deposits.

2. The City Council waives the requirement in Council Policy 300-11 for lease language addressing the employment of former City employees.

3. The City Council approves the Lease and authorizes the Mayor or designee, on behalf of the City, to sign and deliver the Lease and all documents necessary or appropriate to

perform the City's obligations under the Lease. The City Council further ratifies any City actions taken to date in accordance with the Lease. A copy of the Lease, once fully executed, shall be placed on file in the Office of the City Clerk as Document No. RR- 315489.

4. The Chief Financial Officer is authorized and directed to accept the rent payable to the City under the Lease and deposit such rent into the Airport Enterprise Fund 700033.
