 - d. **Removal.** If PERMITTEE or PERMITTEE's agent has received approval and permits to store, utilize, generate or install, or otherwise bring Hazardous Substances to the Permit Area, PERMITTEE or PERMITTEE's agent shall remove all Hazardous Substances in any type of container, equipment or device from the Permit Area immediately upon or prior to the expiration or earlier termination of this Permit. CITY reserves the right to conduct inspections of the Permit Area and/or request documentation demonstrating the legal removal and/or disposal of the hazardous materials, wastes or other containers, equipment or devices from the Permit Area. PERMITTEE shall immediately notify CITY in writing of any violation, notice to comply, or notice of violation received or the initiation of environmental actions or private suits related to the Permit Area.
- g. Environmental Assessment. Upon reasonable cause to believe that PERMITTEE's occupancy, use, development, maintenance, or restoration of the Permit Area resulted in any Hazardous Substance being released on, from or beneath the Permit Area, CITY may cause an environmental assessment under regulatory oversight of the suspect area to be performed by a professional environmental consultant registered with the State of California as a Professional Engineer, Certified Engineering Geologist or Registered Civil Engineer. The environmental assessment shall be obtained at PERMITTEE's sole cost and expense, and shall establish what, if any, Hazardous Substances have more likely than not been caused by PERMITTEE's occupancy, use, development, maintenance, or restoration of the Permit Area, and in what quantities. If any such Hazardous Substances exist in quantities greater than allowed by CITY, county, state or federal laws, statutes, ordinances or regulations, or require future restricted re-use of the Permit Area, then the environmental assessment shall include a discussion of such substances with recommendations for remediation and removal necessary to effect unrestricted re-use and in compliance with those laws or statutes, and estimates of the cost of such remediation or removal. PERMITTEE shall cause, or if PERMITTEE fails to do so within a reasonable period of time, as determined by CITY in its sole discretion, then CITY may cause, the remediation and/or removal recommended in the environmental assessment such that unrestricted re-use of the Permit Area and compliance with environmental laws and regulations are achieved, and PERMITTEE shall pay all costs and expenses therefore.

- 31. Notice of Potential Presence of Lead-Based Paint ("LBP") and Asbestos-Containing Material ("ACM"). The Permit Area contains improvements constructed before 1979 that are presumed to contain LBP and ACM. City discloses the potential presence of LBP and/or LBP hazards and ACM and/or ACM hazards in the Permit Area. City has no special knowledge of the presence of LBP and/or ACM on the Permit Area and lacks knowledge

related to PERMITTEE's planned activities regarding handling instructions necessary to prevent or minimize release of, and exposure to, LBP or ACM and the potential health impacts resulting from exposure to LBP or ACM on the Permit Area. PERMITTEE is encouraged to contact other local or state public health agencies for more information about the presence of and/or risk of exposure to LBP or ACM. No express or implied warranties are given by CITY regarding the environmental condition of the Permit Area, including, without limitation, whether the Permit Area does or does not contain LBP or ACM or whether the Permit Area is or is not safe for any particular purpose. The failure of a CITY to inspect the Permit Area for ACM or LBP or to be fully informed as to the condition of all or any portion of the Permit Area will not constitute grounds for any claim by the PERMITTEE against the CITY. PERMITTEE, to the extent permissible under applicable law, shall indemnify, defend, and hold harmless the CITY from any loss or claim arising or resulting from the presence of LBP and/or ACM on the Permit Area.

32. Water Quality – Best Management Practices. CITY and PERMITTEE are committed to the implementation of controls (best management practices, or BMPs) to manage activities on the Permit Area in a manner which aids in the protection of CITY's precious water resources. It is PERMITTEE's responsibility to identify and implement an effective combination of BMPs so as not to cause pollutant discharges to the storm drain system in violation of San Diego Storm Water Management and Discharge Control Ordinance (San Diego Municipal Code sections 43.0301 to 43.0312).

Any violations shall be corrected by PERMITTEE at its sole expense to the satisfaction of the CITY and are grounds, at the CITY's option, for immediate termination of this Permit.
34. Waiver. CITY'S failure to insist upon the strict performance of any of PERMITTEE'S obligations under this Permit, in one or more instance, shall not be construed as a waiver of any such obligation, and the same shall remain in full force and effect. The property constituting the Permit Area is CITY-owned and held in trust for the benefit of CITY'S citizens. CITY'S failure to discover a breach of any obligation of this Permit or take prompt action to require the cure of any such breach shall not result in an equitable estoppel, but CITY may at any and all times require the cure of any such breach.
35. CITY Employee Participation Policy. CITY may unilaterally and immediately terminate this Permit if PERMITTEE employs an individual who, within the twelve (12) months immediately preceding such employment did, in their capacity as a CITY officer or

employee, participate in negotiations with or otherwise have an influence on a recommendation made to the City Council related to the selection of PERMITTEE for this Lease. It is not the intent of this policy that these provisions apply to members of the City Council.

36. Local Business and Employment. PERMITTEE acknowledges that CITY seeks to promote employment and business opportunities for local residents and firms in all CITY contracts. PERMITTEE will, to the extent legally possible, solicit applications for employment, and bids and proposals for subcontracts, for work associated with this Permit from local residents and firms as opportunities occur. PERMITTEE agrees to hire qualified local residents and firms whenever feasible.

40. Acceptance of Permit Area. By signing this Permit, PERMITTEE represents and warrants that it has independently inspected the Permit Area and made all tests, investigations and observations necessary to satisfy itself as to the condition of the Permit Area. PERMITTEE further represents and warrants that it is not relying on any representation by CITY as to the condition of the Permit Area or its suitability for the Permit Use, and that PERMITTEE is relying solely on its own and independent inspections, tests, investigations and observations of the Permit Area in entering into this Permit. PERMITTEE accepts the Permit Area in its current condition. PERMITTEE acknowledges and agrees that unless set forth in this Permit, CITY has no obligation to improve, modify, repair, replace, alter, secure, or otherwise develop the Permit Area at any time either prior to, on or after the Effective Date. PERMITTEE shall not hold CITY responsible for any defects in the Permit Area. PERMITTEE accepts and assumes all risk of harm to all persons and property from any defects in the Permit Area or any improvements thereon, and shall be solely responsible, therefore.

To the City of San Diego

This letter serves as the equivalent of a Certificate of Insurance. For purposes of liability for claims arising from the actions of employees acting on its behalf, the FBI, as an agency of the government of the United States, is "self-insured."¹ According to the U.S. Comptroller General:

It has long been the policy of the United States to assume its own risks. Hence, appropriated monies of the United States are generally not available for the payment of insurance premiums in the absence of specific statutory authority. This rule is applicable to insurance against tort liability as well as insurance against losses caused by fire, tornado, or other catastrophic events. It arose because of the magnitude of the government's resources and the wide dispersion of the types of geographical location of the risks made a self-insurance policy generally more advantageous to the government.²

U.S. government liability for claims of personal injury or property damage is determined pursuant to the terms of the Federal Tort Claims Act (FTCA)³ or other applicable federal law. Depending on the amount, meritorious claims and judgments against the United States under the FTCA are payable either from agency appropriations or from the Judgment Fund.⁴ The United States also has funding available to cover workers compensation benefits under the Federal Employees' Compensation Act (FECA)⁵ for FBI employees injured in the course of employment.

Sincerely,

M. Todd Heflin

Unit Chief/Division Counsel
