

Items Returned to the City of San Deigo

Today, October 8th, 2014 the city of San Diego picked up 7 Crown DC 300 amps, one Truck Lift and one MTM 8-Track Dubber which are listed on their 'City of San Diego Assets Located at the Reuben H. Fleet Science Center' document.

These items are being returned to the City of San Diego because the Reuben H. Fleet no longer uses these items.

This will result in only one line item remaining on the City's Asset list, 104125 Recorder-Dubber Magnatech.

Subject: FW: Fleet City Assets Disposal
Attachments: City Assets - Fleet.xlsx

Hi Susan,

Section 6.10b Ownership of Improvements and Personal Property of the Fleet's lease with City state "LESSEE may use without charge the CITY-owned equipment listed on the attached "Exhibit "D", including any subsequent replacements by CITY. LESSEE shall reasonably maintain said equipment and may not remove or dispose of any items without prior written permission from the City Manager."

The Fleet is requesting to dispose of the highlighted City assets attached. Please let me know if Park and Rec would have use of any of these items or if we can give the Fleet permission to dispose of them as requested.

Thank you.

Patti

Subject: Fleet City Assets Disposal

Patti, you may be aware that the Fleet still has some (very) old assets that were originally City property. Almost all of these assets, some more than 35 years old, are obsolete or are no longer in use and have no value to us or anyone else.

Attached is the list we have that breaks this out into 3 categories: assets we would like to dispose of, assets previously disposed, and a few that we are still using, believe it or not. We would like permission to dispose of the top list of items in yellow. They have no value and would have long been depreciated and are now just taking up space.

Essentially we would like to reduce the number of items still listed as City assets to the short list of 6 items at the bottom.

The easiest thing to do, from our perspective, is to release all remaining property to the Fleet for us to dispose, or use, at our discretion. That would allow us to clean up a lot of our space and not have to worry about getting permission each time we need to dispose of something. However, there may be reasons why the City cannot do it that way. I would understand.

Please let us know what would work best.

Thank you.

Craig
