Ridgeview Community Garden

BACKGROUND

The Ridgeview Community Garden is envisioned as a community asset that will enhance the community's beauty and allow residents to garden and interact in a meaningful way, while growing healthy food. Ours is a community of over 400 homes, with an active neighborhood association (Ridgeview Neighborhood Association, or RNA). We are the garden planning committee who represent the RNA for the purpose of this garden.

OVERVIEW

The RCG will be open to residents to rent gardening space or to help care for the communal garden plots and to participate in gardening workshops. There will be a central space for sitting and socializing (2 picnic tables and a pergola when funds allow), a children's play area, and a place for tools to be stored (a tool shed when funds allow). There will also be a managed compost area where the plant material will be contained on the west side of the property, abutting the stone wall, so it will be hidden from the road and away from homes. We have 2 certified Master Composters on the gardening committee and lots of composting experience.

At the front of the garden, there will be 3 community gardening areas that will enhance the beauty of the garden. These areas will contain flowers, herbs and perennials that attract butterflies. Beyond those beds, there will be 2 rows of garden plots that will be rented to individuals or families. There will be more rows of rented plots behind the seating area. A row of fruit trees and vines will be planted on the east side of the property to visually separate the garden from the home next to the property. At the back of the property there is a mature pomegranate tree. Additional fruit trees will be planted in that back area and around the picnic area for shade. All fruit trees and vines will be property of the community and available for anyone to eat fruit from. The culture we want to create is one of sharing and collaborating.

DETAILS

Everyone who rents a garden space enters into a contract with the RCG that specifies what can and cannot be done with the plot (no noxious weeds, no highly toxic chemicals, no permanent structures/supports, must clean up dead material quarterly). Water is included in the rent, but no automatic watering devices will be allowed (because of potential waste; drip hoses that are temporarily hooked to a hose while on the premises are allowed for efficiency in water use). All renters must attend at least 3 workdays per

year to stay in good standing and continue renting. The workdays are times when the communal spaces are tended, trees are planted, compost is managed, borders are weeded, tables and sheds are built, etc. The workdays may also include optional educational workshops related to gardening. Workdays will be offered at least 6 times per year. There will be one garden manager who is responsible for oversight of the garden and bringing concerns to the gardening committee. The gardening committee is responsible for scheduling workdays and handling non-compliance issues.

PLOT RENTAL

\$100 per year, per plot (or \$50 per six (6) months).

If there is no waiting list, additional plots may be rented quarterly until someone else wants the plot.

All funds will be held by the RNA treasurer in an account from which the water bill, supplies and other expenses will be paid.

We expect this garden to be used extensively by many residents and to be a community treasure.
