RE: Use and Occupancy Permit, dated August 10, 2012 (the "Permit") between the City of San Diego ("City") and NextG Networks of California, Inc. ("Permittee") **CITY ID # STREET/836/800**

Dear Ms. Charles,

As part of its ongoing network deployment efforts, Crown Castle NG West LLC (formerly NextG Networks of California, Inc.) will be utilizing an alternative pole-mounted radio equipment shroud identified as the HPSH-60. As indicated in the attached exhibit (stamped and approved by Development Services), the new shroud configuration is shorter in height and comparable in overall size and scale to the other approved radio equipment shrouds contained in the current Use and Occupancy Permit.

Pursuant to Section 11. Improvements and Alterations, and Subsection 11.1. Upgrading of the Permit, certain changes, including equipment upgrades, may require the City's prior written consent. In order to comply with such requirements of the Permit, Crown Castle as the Permittee would like to request said consent from the City to proceed with use of the HPSH-60 radio equipment shroud.

By having an authorized person sign below, the City is providing its authorization to Crown Castle NG West LLC to incorporate the HPSH-60 radio equipment shroud into its ongoing network deployment efforts within the City of San Diego.

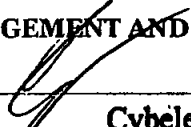

Please contact me at (949) 290-9678 or via email at carver.chiu@crowncastle.com should you have questions or require additional information. Thank you for your consideration.

Sincerely,

Carver Chiu
Manager, Government Relations
